

WEDNESDAY MORNING, OCTOBER 10, 1906.

CRUISER IS FAST ONE.

New California in Her Trial Spin.

Exceeds the Government's Requirements in Many Trial Trips.

Races on Mile Course Like a Time-Tried Greyhound of the Navy.

Union Iron Works Achieves Another Great Success in Shipbuilding.

(BY DIRECT WIRE TO THE TIMES.)

SANTA BARBARA, Oct. 9.—[Exclusive Dispatch.] The new 14,000-ton armored cruiser California is a naval greyhound for today the warship on her first official trial run, tore through the waters of Santa Barbara Channel at the rate of 22.73 knots an hour, the government requirements being 22 knots an hour. A feature of the remarkable showing was that the new cruiser maintained that high speed for a number of trips over the mile course.

Every claim made by the construction department of the Union Iron Works of San Francisco, the builders, was realized to overflowing.

During fifteen trips over the mile course the California behaved like an old adjunct to Uncle Sam's navy. Although conditions were not the most favorable, at about 12:30 o'clock, the California left her moorings and proceeded up the coast for about twelve miles, her commander waiting for the fog to lift sufficiently to permit of sighting the land beacons that marked the distance of the course. Then the trials were made, after the fog had risen.

At 4:30 o'clock this afternoon the California was again at her moorings, having run in on surplus steam acquired during the trial. Tonight the officers of the navy were entertained at dinner on board the cruiser by Chief Engineer Frank A. Gardner of the Union Iron Works.

The continued foggy condition of the weather began to alarm the builders, for the reason that the supply of coal the cruiser carried was not sufficient to hold out for many days and it looked for a time as if the California would have to put back to San Francisco for coaling or have a cargo sent here, either of which would entail considerable expense.

It is believed now that the other trials will take place tomorrow. Today's test was what is termed by the government the builders' test. The more rigid tests will be conducted by the builders at the next trial, presumably tomorrow, when the cruiser will be run for four consecutive hours under forced draught. It was learned from an unofficial source that the engines of the California and all her machinery were satisfactory.

The vessel which is to bear the name of California in the navy of the United States is one of every citizen of the State may be proud. Thoroughly up to date, swift, well armed and well protected, the big craft is destined to play an important part in any future trouble in which this country may become involved.

She is of such power that she may successfully give battle to many vessels classed as battleships. She has speed enough to overtake any battleship she may wish to meet.

Of the many modern armored cruisers afloat today, the California's only peers are her sister ships, the West Virginia, Nebraska, Maryland, Colorado and South Dakota and the still larger Tennessee and Washington of the United States navy and a few of the latest British and Japanese armored cruisers.

She will be turned over to the government, ready for active service, to ward the end of the present year.

ICE TRUST CASES REOPENED.

Judge Wildman Withdraws and Judge Sney Produces a New Issue, Namely, Jurisdiction.

(BY DIRECT WIRE TO THE TIMES.)

TOLEDO (O.) Oct. 9.—[Exclusive Dispatch.] Two new turns arose today, in the reopening of the ice trust cases. The first was the withdrawal of Judge Samuel Wildman of the circuit bench from the case because he had been re-nominated on the Republican ticket to oppose Judge Kinkade, who sentenced the ice men, and who is on the Independent ticket. Chief Justice Wilson of Columbus will sit in his place.

The second turn was when Judge Sney stated that his issue was the jurisdiction of the Circuit Court in liberating the sentenced ice men. The trust defendants made an earnest effort to have Sney divulge his grounds. But as the case was to be set for Thursday, when Wilson appears, he did not state his grounds. He claims they are solid.

The old familiar faces were all on hand when Judge Sney sprung his coup. With Sney, for the State, were Prosecutor Wachenheimer and his assistants, Thomas Tracy, Alex Smith and Clarence Brown, with their following of corporation lawyers, were for the defense.

MASONS' GRAND LODGE MEETS.

TWO THOUSAND MEMBERS WERE ADMITTED DURING YEAR.

Order Raised \$225,000 for Relief of San Francisco Sufferers, of Which \$52,000 Remains to Be Distributed as Needed During the Coming Winter.

(BY THE ASSOCIATED PRESS—P.M.)

SAN FRANCISCO, Oct. 9.—The grand lodge of Free and Accepted Masons convened today. The report of Grand Master Motley H. Flint showed that the increase in membership was about 200, and that at this time the fraternity is in a prosperous condition with a membership of nearly 45,000.

The Grand Master read also a special report of the money contributed for the relief of members who were affected by the disaster. The total received for this purpose was \$225,000, of which all but \$52,000 has been expended for the purpose for which it was contributed. This amount will be expended during the winter months.

LOSER GEMS IN CHICAGO.

California Woman Robbed of \$1000 Worth of Jewelry While at a Theater.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Oct. 9.—[Exclusive Dispatch.] Mrs. H. Kaplan of San Francisco, a guest at the Majestic Hotel, reported to the detectives of that city today that she had been robbed of jewelry valued at \$1000.

Mrs. Kaplan declared that the theft occurred while she and her husband were at the theater. Kaplan is interested in the California State Journal of Medicine. He is here on a business trip, and Mrs. Kaplan is accompanying him because their home was wrecked by the earthquake, has not yet been rebuilt.

ACTRESS SEEKS DIVORCE.

Returns from Tour of Europe, Charging Hubby With Cruelty and Intemperance.

(BY DIRECT WIRE TO THE TIMES.)

NEW HAVEN (Ct.) Oct. 9.—[Exclusive Dispatch.] Mrs. Adla Loomis Bartlett of this city, has begun a suit for divorce from Carl Graham Bartlett of New York. Mrs. Bartlett is an actress, but has been traveling in Europe, and has just returned. The couple married here in 1898. She charges cruelty and intemperance.

"BILL" IS BACK AGAIN.

After Hiding, Returns Unkempt and Tattered, Declaring His Fortunes Vanished.

(BY DIRECT WIRE TO THE TIMES.)

SEATTLE, Oct. 9.—[Exclusive Dispatch.] "Swiftwater Bill" Gates, for several weeks in hiding here, while divorce and bankruptcy proceedings have been pending, is back in town, unkempt, tattered, and protesting poverty.

Gates appeared without warning, walking into the office of Attorney Godfrey, special receiver in bankruptcy, and declaring his readiness to proceed with the bankruptcy claims. Gates declares his fortune is gone, and that he is penniless again.

ORDERS TO FUNSTON FIX MARINES' DUTY.

No Active Participation in Disorders Save in Extreme Emergency.

Gov. Taft Announces the Decision of the President that American Troops Do Not Engage in Conflicts With Cubans—Forces Will Remain in the Island for the Present—Gov. Magoon Arrives in Havana.

(BY DIRECT WIRE TO THE TIMES.)

HAVANA, Oct. 9.—William H. Taft, as provisional Governor of Cuba and Secretary of War of the United States, tonight issued the following order to Gen. Frederick Funston, outlining the duties of the American forces in Cuba:

"The officers of marines stationed at various localities are advised that they are not expected to take part in active way in the suppression of disorders, unless extreme emergency arises in which it is absolutely necessary for them to protect life and property. The duties of the marines are generally limited to tendering their good offices between the conflicting elements and the prevention of disorder in the region in which the state of tension between the political parties is inevitable during the present crisis."

The order concludes as follows:

"The President of the United States deems it of the utmost importance that the American forces do not engage in conflicts with Cubans, but that disorders by Cubans be suppressed by Cubans. It is also expected that the officers and men, both of the army and the Marine Corps, will exert every effort to show all the courtesy possible to Cubans of all parties, and avoid in any way injuring their sensibilities."

The order makes it plain that the marines will remain in the island for the present, as an adjunct to the infantry.

HAVANA, Oct. 9.—[Exclusive Dispatch.] Gov. Magoon landed at 5 o'clock this afternoon, and was received on the dock by a large crowd. His wife, and that of Mrs. Taft, Mrs. Bacon, and Gen. Bell were quiet, but sincere.

The steamer Mascotte with Gov. Magoon, Gen. J. Franklin Bell, Mrs. Taft and Mrs. Bacon, entered Havana harbor at 4 o'clock this afternoon. In the wake of the Mascotte came the battleship Texas with a detachment of 300 marines from Norfolk. A launch carrying Gov. Taft, Assistant Secretary Bacon and Lieut. McCoy hurried out to the Mascotte. Then followed another launch, with Gen. Funston and his aide, and a third with a committee of Cuban newspaper men, who carried huge bouquets of flowers, which were delivered to Mrs. Taft and Mrs. Bacon with a brief address of welcome.

After the presentations to the Mayor and the City Council, the party entered carriages and were driven to the palace, where Gov. Taft, Bacon and Magoon had a long conference in the Governor's office.

Magoon interviewed the members of the press. He declined to discuss his plans for the future. He said he had received thirty days' leave of absence prior to his departure from Washington. He expressed himself as being gratified at being in Cuba. He said he would take up his residence with Minister Morgan as the Minister's guest, pending the departure of Gov. Taft and that he might continue to reside there if he found it convenient. Gen. Bell will reside at the army headquarters at Marionero. Gen. Funston will make his headquarters at Camp Columbia.

There will be a good opportunity tomorrow for Mr. Taft and Gov. Magoon to go over what has been done. It is a holiday, being the anniversary of the beginning of the Ten-Years' War against Spain.

TAFT GRANTS AMNESTY.

Mr. Taft will mark the day in Spanish style, by issuing a proclamation of amnesty to all accused of offenses connected with the recent rebellion. Usually, such action meets with general favor. In this case, Mr. Taft's goodness of heart is appreciated, but his wisdom is questioned because of the scope he will give to his act.

The proclamation includes the persons implicated in the assassination, by Moderates, of Representative Enrique Villuendas, September 22, 1905, a year before the revolution broke out. It also includes those involved in the retaliatory attack by Liberals in the Rural Guards in their barracks at Guanabacoa, in February last, when several were killed in their bunks.

PARDONS TO END CRIME.

Taft's idea is that one crime offset the other, and that there can never be peace until all concerned in both are pardoned.

Many Cubans do not take this view of it. They point out that the murder of a private citizen, especially in a time of peace, is a crime against the individual and society, and under Cuban laws must be atoned for. An attack on the troops, on the other hand, is an act against the government which the government may or may not overlook, as it may any act of rebellion against authority.

It is not thought Mr. Taft can, by condoning the private assassination, conserve peace, as the friends of Villuendas, deprived of justice, will wreak their own vengeance.

CRITICAL AT CIENFUEGOS.

In fact, Cienfuegos is just now the most critical spot on the island, owing to the feud that has been started between Villuendas's supporters and the Moderate Party. Consul-General Steinhardt is now in that city, trying to arrange a basis of settlement. It is believed by many here, that, however well he may apparently succeed, Mr. Taft's amnesty to the murderers will result in a vendetta to which the Hatfield-McCoy trouble would be as play.

The proclamation serves notice that armed bands breaking the law after tomorrow will be proceeded against and denied the benefits of amnesty.

Taft today said that practically all the American warships in Cuban waters would soon be withdrawn.

NOT THINKING OF CANAL.

When asked today for a statement concerning the plan to construct the Panama canal by contract, Gov. Taft replied that he had not had time to think of the canal. All matters pertaining thereto, he said, must be settled by the authorities at Washington, or await his return.

FEVER IN CIENFUEGOS.

MARINES ORDERED AWAY.

(BY THE ASSOCIATED PRESS—P.M.)

CIENFUEGOS, Oct. 9.—Col. Barnett today ordered the immediate removal of the American marines from the city, on account of the appearance here of yellow fever. The marines were taken aboard the transports. The yellow fever patient came from Cienfuegos, and two other cases were reported.

WALL FALLS UPON OTTAWA STREET CAR.

(BY DIRECT WIRE TO THE TIMES.)

OTTAWA (Ont.) Oct. 9.—[Exclusive Dispatch.] Today, one of the walls at the Gilmour Hotel fire ruins, left standing when it should have been leveled, fell on a streetcar with a terrible crash. Five persons were badly hurt. They are:

GREAT HISTORIC DIES.

She Lies in State in Rome Surrounded by Mementoes of Her Great Triumphs.

(BY THE ASSOCIATED PRESS—P.M.)

ROME, Oct. 9.—The Marchesa del Grillo, better known as the Adelaida Ristori, the celebrated Italian actress, died today of pneumonia.

SALVINI MOURNS HER.

FLORENCE (Italy) Oct. 9.—Tommaso Salvini, on learning of the death of Ristori, said:

"It is the greatest and perhaps the last grief of my old age."

The son of the Marchesa is expected here tomorrow. The mother's body will not be disturbed until the son's arrival. The body of the great actress is surrounded by mementoes of her great triumphs, including many souvenirs of her tour in the United States. In the room also are letters from Edwin Booth, with whom she acted in 1855, at the Globe Theater, as well as pictures of all the sovereigns of her epoch, from Dom Pedro of Brazil to Emperor William.

SEVEN SUFFER SERIOUS HARM.

MANY OTHER PASSENGERS HURT IN RAILROAD WRECK.

Four Cars of the Overland Limited Thrown from the Track West of Wamego, Kan.—Wreckage Strewn a Quarter of a Mile—Travelers Dig Way Out.

(BY THE ASSOCIATED PRESS—P.M.)

TOPEKA (Kan.) Oct. 9.—Seven persons were seriously injured and many more slightly hurt in a wreck tonight eight miles west of Wamego, on the Union Pacific Railroad.

Four cars of the Overland Limited, No. 101, were thrown from the track by a broken rail. The wreckage is strewn over a distance of a quarter of a mile.

The train was late and was running at high speed at the time of the accident. The engine, baggage and mail cars, together with the smoker, did not leave the track.

A partial list of the injured is: CONDUCTOR LLOYD, Kansas City, three ribs broken, internally injured. MRS. GARDNER, address unknown; bruised about head, shoulder and arm. FRED CONLAIN, St. Louis; bruises and internal injuries.

The passengers acted with the greatest coolness, although tossed and thrown about, and to this is due to some extent their escape from more serious injury. They were shut in by broken beams and timbers, and dug their way out with much difficulty.

The first chair car was buried in the earth to a line even with the windows, and other cars, rolling over, after leaving the track, slid along leaving their trucks behind them. With seats and fixtures piled up within added to the difficulty of egress.

OELRICHS WILL CONTEST.

Time in Which to File Objections to the Document is Extended by Stipulation.

(BY THE ASSOCIATED PRESS—P.M.)

NEW YORK, Oct. 9.—The time allotted by law to proposed contestants for filing a contest to the will of the late Herman Oelrichs expired today. No objections were filed, but lawyers representing the executor and the widow of the testator appeared before the probate clerk and entered into a stipulation extending the time for the filing of objections until October 15. There is no mention made in this stipulation in relation to the case of Herman Oelrichs Jr., the only child of the testator, who, it was recently reported, intended to contest the will.

CANNOT IDENTIFY BODY.

Stockton Suicide Shipped to Georgia Is Not Recognized by Father.

(BY THE ASSOCIATED PRESS—P.M.)

JACKSON (Ga.) Oct. 9.—An awkward state of affairs exists here by reason of the failure of identification of the body shipped here from Stockton, Cal., as that of O. S. Carmichael, son of D. N. Carmichael, a prominent citizen of this county.

On October 1 D. N. Carmichael received a telegram from Stockton, saying that the body of a man supposed to be O. S. Carmichael was then at an undertaking establishment. Carmichael having committed suicide. Necessary arrangements were made and the body sent here, but on arrival the body cannot be identified as that of Carmichael.

BARBED-WIRE INVENTOR DEAD.

Joseph H. Glidden Got His Idea from Brads in a Block With Staples.

(BY THE ASSOCIATED PRESS—P.M.)

CHICAGO, Oct. 9.—Joseph H. Glidden, the inventor of the barbed-wire fence, is dead at his home in De Kalb, Ill., at the age of 93. Glidden obtained the idea of making barbed wire fencing from an exhibit made at a county fair in the early 70's by a man named Rose, who had driven some brads through a block which he then stapled on a wire. Glidden improved upon this idea, and the barbed wire of today was the ultimate outcome.

MANY HEIRS TO CONTEST.

Will of "Poet Lariat" to Be Tested by "Two Hundred Persons—Big Bequest Involved."

(BY DIRECT WIRE TO THE TIMES.)

LITTLE ROCK (L. I.) Oct. 9.—[Exclusive Dispatch.] By a will found today the bulk of the estate of Bloodgood H. Cutter, made famous by Mark Twain as "The Poet Lariat," in "Innocents Abroad," will go to the American Bible Society. Cutter died two weeks ago, aged 98. Two hundred heirs will contest the will. The Bible bequest is about \$750,000.

GIVES TO HARVARD.

Five Millions for the Needy Students.

Jim Garland's Will, Filed in Portsmouth, R. I., Is Most Generous.

Widow to Have Income of Trust Fund Unless She Remarries.

Provision for the Clubman's Children Is Also Made, Executors Named.

(BY DIRECT WIRE TO THE TIMES.)

NEWPORT (R. I.) Oct. 9.—[Exclusive Dispatch.] The Garland millions are to become a trust fund for old, needy and deserving students of Harvard University.

By the will of James A. Garland, the millionaire clubman and yachtsman, whose death occurred at Hanover, Mass., a short time ago, a trust fund, to be devoted to the aid of deserving students of Harvard University, is provided for, to be available after the death of the issue of the testator's children.

Just how great will be the fund to be devoted to this purpose cannot at present be determined, but it certainly will not be less than \$5,000,000. A conservative estimate places the sum at this figure, and under good management it will probably be much greater, when available.

WILL IS FILED.

The will was filed today in Portsmouth, R. I., near which Prudence Island, where Garland owned a valuable estate, is located. The will makes suitable bequests of money to each of the children of the testator, and then provides that the residue shall be in charge of executors acting as trustees.

It gives Mrs. Garland full possession of Prudence Island property and the income of the trust fund. It also provides for the education of the five children.

FORGOTTEN IF REMARRIED.

But Mrs. Garland forfeits all if she remarries. Upon the death of Mrs. Garland, or upon her remarriage, the income of the trust fund is to go to the three sons or their issue and upon the death of the last survivor the fund will be converted to a perpetual trust fund for Harvard University for the use of needy students.

Mrs. Garland, John R. Vail, and Henry B. Tudor are named as executors, under bonds of \$1,000,000 each.

HIS GRANDFATHER'S WISHES.

In leaving the income of this big sum to Harvard, James Garland is said to be only following out the wishes of his grandfather, James A. Garland. When he died, many years ago, he left \$250,000 to be divided among his widow, his sons and his daughter, Mrs. Robert Emmet.

Had there been no grandchildren, \$1,000,000 would have gone to Harvard, but both Mrs. Emmet and Garland had families, so the college was a loser for the time being.

James A. Garland, or "Jimmy," as he was commonly known, was a clubman of pronounced club tendency, a society man and "blue-blooded." He was somewhat of a dabbler in letters, at one time having been editor of a well-known magazine, but he was best known for his marriage to Miss Marie Louise Tudor, his divorce from her, their subsequent remarriage, and his long suffering, which ended in death.

PROCLAIMS OPENING.

President Sets October 29 as Date for Settlement of Walker Indian Reservation.

(BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, Oct. 9.—The President issued a proclamation today, and fixed 12 o'clock, noon, October 29, as the date for opening the Walker Indian Reservation, in Nevada, to settlement. There are 35,000 acres of land to be disposed of, and the law permits its acquisition under the General Land Laws. The reservation is in the Carson City land district.

NINE ELOPEMENTS IN A DAY.

All from Massachusetts to Rhode Island—One White Girl and a Chinaman.

(BY DIRECT WIRE TO THE TIMES.)

PROVIDENCE (R. I.) Oct. 9.—[Exclusive Dispatch.] Nine couples eloped here from Massachusetts yesterday, and were wed, securing licenses at the City Hall. One couple was a white girl and a Chinese laundryman of Boston. Another an actor and a South Framingham girl, whose papa objected to the groom's profession.

FOLLOWED HIS CO-STAR.

NEW YORK, Oct. 9.—[Exclusive Dispatch.] Representatives of Henry Miller asked the police to prevent Alfred Freund, member of the wealthy St. Louis family, from molesting his co-star, Miss Margaret Anglin. He is said to have followed the actress two hours throughout the country, but his disreputable conduct in merely asking for an interview, cards, letters and flowers by cartloads, nothing is said of them.

GILLETT AT HOME, NEIGHBOR, CITIZEN.

Friends Say the Best Things That Could Be Said of People's Candidate for Governor.

BY PERCIVAL R. MILNES.

SPECIAL CORRESPONDENCE OF THE TIMES.

EUREKA (Cal.) Oct. 9.—(P.M.)—Friends have a more extended acquaintance of a larger personal following than Hon. James N. Gillett. In Humboldt county, he is not only a familiar name, but a familiar face. He is a man of a degree that almost approaches the fondness of kinship.

The cause of his high standing can be traced to the simplicity of his private life, the honesty of his purpose in all things, his recognized ability and sound reasoning, and his open, frank and sunny way in coming in contact with all classes of people.

In his private and public life he was never known to dodge an issue or hesitate as to the course he would pursue.

James N. Gillett

and the honor conferred upon him. He is one who bears his honors easily and modestly. Indeed, his neighbors regard him as a "Jim Gillett," who has reached his present position through successive tests of public service, and his clean life has more than ever endeared him to the hearts of those who have watched and encouraged his career.

His sense of justice and fairness to all men in all conditions of life is such that he is particularly fitted to occupy executive chair of a great State with its multiplicity of business interests and cosmopolitan people. Born of the plain people, reared amid the environments of an industrious and progressive citizenship, he now stands in the plenitude of his powers and

Secretary Curry stated that it is obligatory to file certificates for nominations of this character by September 27, but that the law was evidently misconstrued on a belief that the time limit did not expire until October 5. He added that the candidates for places on the Appellate Court benches have the alternative of filing with County Clerks, and by this method Cowan and Harrison may secure places on the ballot.

This feature of the campaign was decided on after it became known that the speeches of Hearst up State had proved disappointing. The farmers had expected to hear a speech bristling and snappy, with all the life of a Hearst editorial, and when they got the Hearst speech they realized there was something lacking.

They questioned how there could be such a vast difference between Hearst as a writer and Hearst as a speaker. So to correct this embarrassment as much as possible the graphophone business was inaugurated, and today Hearst spent much time talking "hot stuff" into a big brass funnel, while his words were being turned into "records" enough to last until election. After this was done the moving-picture machine took him in hand and everything was ready for the performance on the village green.

Between now and election eve the special attractions of every village green will be Hearst talking through the graphophone and in the background Hearst in action on the canvas. Nothing but high-power apparatus will be used.

They questioned how there could be such a vast difference between Hearst as a writer and Hearst as a speaker. So to correct this embarrassment as much as possible the graphophone business was inaugurated, and today Hearst spent much time talking "hot stuff" into a big brass funnel, while his words were being turned into "records" enough to last until election. After this was done the moving-picture machine took him in hand and everything was ready for the performance on the village green.

Between now and election eve the special attractions of every village green will be Hearst talking through the graphophone and in the background Hearst in action on the canvas. Nothing but high-power apparatus will be used.

The feature of the campaign was decided on after it became known that the speeches of Hearst up State had proved disappointing. The farmers had expected to hear a speech bristling and snappy, with all the life of a Hearst editorial, and when they got the Hearst speech they realized there was something lacking.

DEMOCRATS TOO LATE.

Four of Them Left Off the Official Ballot by Secretary Curry.

(BY THE ASSOCIATED PRESS.—P.M.)

SACRAMENTO, Oct. 9.—Secretary of State C. F. Curry today announced that the certificates of nomination of four Democratic candidates for State and county offices had been received too late to give the nominees a place on the official ballot.

These candidates are Dr. C. W. Nutting, candidate for member of the State Board of Equalization from the Third District; C. M. Haybel, candidate for Clerk of the Supreme Court; Robert Harrison, candidate for Associate Justice of the Court of Appeals of the First District; and A. W. Cowan, candidate for Associate Justice of the Appellate Court of the Third District.

All of these nominees were selected by the State Central Committee to fill vacancies caused by resignations.

Secretary Curry stated that it is obligatory to file certificates for nominations of this character by September 27, but that the law was evidently misconstrued on a belief that the time limit did not expire until October 5. He added that the candidates for places on the Appellate Court benches have the alternative of filing with County Clerks, and by this method Cowan and Harrison may secure places on the ballot.

This feature of the campaign was decided on after it became known that the speeches of Hearst up State had proved disappointing. The farmers had expected to hear a speech bristling and snappy, with all the life of a Hearst editorial, and when they got the Hearst speech they realized there was something lacking.

They questioned how there could be such a vast difference between Hearst as a writer and Hearst as a speaker. So to correct this embarrassment as much as possible the graphophone business was inaugurated, and today Hearst spent much time talking "hot stuff" into a big brass funnel, while his words were being turned into "records" enough to last until election. After this was done the moving-picture machine took him in hand and everything was ready for the performance on the village green.

Between now and election eve the special attractions of every village green will be Hearst talking through the graphophone and in the background Hearst in action on the canvas. Nothing but high-power apparatus will be used.

MACHINES TALK FOR HEARSTITES.

GRAPHOPHONES AND MOVING PICTURES ENTER CAMPAIGN.

Yellow Journalist's Word of Mouth Speeches Dissatisfy Farmers so He Will Use Vaudeville Tactics and Apparatus to Make Friends With Bumkins on Village Green.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Oct. 9.—(Exclusive Dispatch.) Arrangements were made today to introduce graphophones and moving pictures into the Hearst campaign.

Hearst has planned personally to appear at least once in all of the larger places in the State, but in the villages and hamlets inaccessible to special trains he will appear automatically.

Between now and election eve the special attractions of every village green will be Hearst talking through the graphophone and in the background Hearst in action on the canvas. Nothing but high-power apparatus will be used.

The feature of the campaign was decided on after it became known that the speeches of Hearst up State had proved disappointing. The farmers had expected to hear a speech bristling and snappy, with all the life of a Hearst editorial, and when they got the Hearst speech they realized there was something lacking.

THE POLITICAL WATCH TOWER
Many think are really chosen the Republic organization to take the nation for the City Council. The climate is practically a nuisance by a nun. Republican may be chosen before the city may have November 1, but I have a feeling that the nomination of the party workers have to go if the party workers have to go.

A HIN

Of the New Wain at Machin's

So many clever styles, such a variety of effects, description of all is impossible.

W. R. Hearst Has a Gold.

NEW YORK, Oct. 9.—W. R. Hearst is ill at his home with a severe cold. Hearst expects, however, to be able to address a meeting of the Independence League in Westchester county tomorrow evening.

HOAR CRITICALLY ILL.
All Friends, and Even Members of the Family Are Barred from the Sick Room.

(BY DIRECT WIRE TO THE TIMES.)
WORCESTER (Mass.) Oct. 9.—(Exclusive Dispatch.) Congressman Rockwood Hoar is critically ill at his home here. All friends, and even the most intimate members of his family are barred from the sick room, and two specialists are in constant attendance. His trouble includes neuritis and a severe eye ailment.

WANT JAPANESE NAME.
NEWCHWANG, Oct. 9.—The Japanese authorities refuse to allow an American company to ship goods over the railway unless a Japanese name is used. Consul-General Harmons has left for America, going first through Manchuria.

DOCTOR'S WORDS
Talks About the Analysis of Postum Food Coffee.

To the Doubting Thomases, the endorsement of a physician as to the wholesomeness of Postum Food Coffee may be comforting.

When coffee causes nervousness and dyspepsia, it's time to stop it. And there is a warm, palatable and wholesome beverage at the same time is a liquid food.

Coffee does harm, not because it's well or poorly made—but because it's alkaloid—drug—caffeine, it contains. The habitual use of coffee, therefore, forms a drug habit.

A Buffalo physician said recently: "I have used Postum Food Coffee in my family and find it to be all that is claimed for it—the most wholesome, delicious beverage. When made and served according to directions it is certainly delightful and refreshing."

"I have read carefully Dr. Davenport's analysis of Postum Food Coffee, as printed on the package, which I most heartily endorse. I have been prescribing it to my patients."

The doctor is right and there's a reason. Read the little book, "The Road to Wellville," in packages.

TURN YOUR FACE INTO DOLLARS.

Many a Man Has Failed Because His Face Was a Picture of Calamity.

It takes sunshine to produce a rose, a perfect rose. And so man, to be successful, must have sunshine inside. The life which has it not, which has no health and no happiness, is sour, surly, pessimistic, and a failure. The world already has too many vineyard faces that breathe ill will and strife. The world wants joy, comfort, sunshine, and will cling to the man who has it, who radiates gladness and triumph wherever he is and under all circumstances.

Some people have a genius for seeking out the disagreeable, the crooked, the bad and the ugly. These are the destroyers; they travel in schools, they herd together, for they love their kind, and the cheerful part of the world will have nothing to do with them.

And why is it that so many people disaster, knowing at the same time that if they do, their lives will be ruined? Some people cannot help it, for pessimism usually comes from bodily disorders, and this cannot always be prevented. The stomach, for instance, is the most common cause of discontent, sour face, recklessness, disgust and lack of ambition. A bad stomach—there is the cause of many a failure. Anyone can have a good stomach, a strong stomach, a stomach that can take care of anything and everything that is put into it, no matter whether it is a very bad stomach now or not.

Stuart's Dyspepsia Tablets do this very thing. One ingesting of these little tablets digests 3000 grains of food, and no matter how bad is your dyspepsia or indigestion, these tablets will digest everything in your stomach thoroughly and completely, and better and quicker than a healthy stomach can do the same thing. Stuart's Dyspepsia Tablets will cure quickly loss of appetite, brash, irritation, burning sensations, nausea, heartburn, eructations, loss of vim and spirit, bad memory, and dyspepsia and indigestion in their very worst forms.

No other little tablets in the world can do so much. You should carry Stuart's Dyspepsia Tablets around with you wherever you go and take them after meals. Then only will you realize what it is to enjoy a meal, and what perfect digestion means. Your whole body and your mind will feel the effects; your vim will increase, you will be more satisfied with what the world does for you, and you will be happier and your face will be one of supreme contentment. That will bring you success and then more success. Your face will bring you dollars. Try it. It will cost you just 50¢ for a package of these wonderful Stuart's Dyspepsia Tablets, at any drug store on earth.

CORONER SAYS
IT WAS MURDER.

ACCUSES "PROMINENT WITNESS"
AT THE INQUEST.

States He Was "Abused and Vilified Before Going into Court."

Several Witnesses at Investigation of Policy King's Death—Jury Renders Verdict of Suicide.

(BY THE ASSOCIATED PRESS—A.M.) NEW YORK, Oct. 9.—That Albert J. Adams, the so-called "policy king," who was found dead in his room in the Hotel Ansonia, was murdered, is the belief of Coroner Harburger, as expressed at the opening of the inquest into Adams' death today.

The coroner said also that he was convinced that his investigation also would reveal evidence to show that the murderer is a prominent witness at the inquest.

In opening the inquest Coroner Harburger told the jury that before going into court he had been "abused and vilified by an important witness in the case." Continuing he said:

"The relatives and police believe that Adams committed suicide, but as Coroner I believe and expect to show to you that Albert J. Adams was murdered, and that the murderer is an important witness in this case, who will be before you."

ISSUES EIGHT INDICTMENTS.
Sugar Corporations and Railroads Are Accused of Sharing in Illegal Rebates.

(BY THE ASSOCIATED PRESS—A.M.) NEW YORK, Oct. 9.—Eight indictments in the so-called sugar rebate case were handed down by the October Federal grand jury, which completed its labors today. The indictments were found earlier in the year but never were officially reported until today.

The indictments were as follows: Against the American Sugar Refining Company; against the American Sugar Refining Company of New York and C. Goodloe, Edgar and Edwin Hale, for receiving rebates from the New York Central Railroad; against the Western Transit Company for giving rebates to the American Sugar Refining Company and the American Sugar Refining Company of New York; against the American Sugar Refining Company of New York for receiving rebates from the Western Transit Company; against the Delaware Lackawanna and Western Railroad Company for giving rebates to L. M. Palmer; against the Northern Steamship Company of New York for receiving rebates from the Northern Steamship Company; against the New York Central Railroad for giving rebates to the American Sugar Refining Company.

RACKING COUGHS

A tight, racking cough forecasts the early development of consumption or bronchitis, and early death unless cured promptly with the famous and genuine doctor's prescription, Dr. Bull's Cough Syrup.

"I suffered from a bad cold for some time, and a very annoying and racking cough. I made up my mind to try Dr. Bull's Cough Syrup and after having taken two bottles, my cough and cold were cured and I feel as well as ever. I would not be without."

DR. BULL'S COUGH SYRUP
In my home and recommend it cheerfully to all my friends. My boy, four years old, was also cured of a severe sore throat by this great remedy. T. Kerrigan, Elk Point, S. D.

Sample sent free to all readers. We want you to have absolute confidence in Dr. Bull's Cough Syrup and to that end, we will send you a sample free. If you will write for it and mention this paper, address A. C. MEYER & CO., Baltimore, Md.

AVOID THE SUBSTITUTE.—Ask for Dr. Bull's Cough Syrup and insist on having it. Bear in mind there is no remedy better or just as good as Dr. Bull's Cough Syrup. Dr. Bull's is the best. At all druggists. Price, 25¢, 50¢ and \$1.00.

CHICAGO WHITE SOX WIN FROM THE CUBS.

[BY THE ASSOCIATED PRESS—P.M.]

CHICAGO, Oct. 9.—The Chicago team of the American League won from the National League pennant winners today, by a score of 2 to 1, in the first game of the world's championship series.

The game furnished a fine sample of modern baseball, wherein the points of the game are more in evidence than the slugging of other days, but it was an error of tactical character which gave the American League team its winning margin. And that error also is the reason that tonight's supporters of the winning team, erstwhile demanding odds in the betting, are willing to take even money on the series.

At 5 o'clock this morning the vanguard of enthusiasm who had not secured reserved seats lined up in front of the box office of the National League Park. By noon, when the gates were opened, several thousand more were awaiting, and within an hour and a half most of the persons who expected to see the exhibition were in their seats. Ticket speculators, warned by the early arrest of eight of their number, soon disappeared. The streets were lined with hawkers, selling flags, pins, megaphones, photographs of the players and souvenirs. Snow fell several times during the afternoon and was making a good showing when, at 7:30 o'clock, the game was begun.

BUNDLED UP CROWD.
The regular grand stand, the boxes in front of it and other 50-cent bleachers and the circus seats surrounding

up enthusiasm of the American League adherents broke out in wild cheering and tooting of horns, while the supporters of the defeated team, for the first part, filed solemnly out of the grounds. One crowd captured Robe and carried him on their shoulders, while another contingent paid like homage to Altrock. Elevated and surface cars were crowded with vociferating thousands who yelled themselves hoarse and overtook into the downtown cars and hotels to continue the celebration. The hotels report a large number of out-of-town delegates here for the game. They come from every section of the country, even foreigners passing through, catching the infection of the baseball craze, deserted the usual sight-seeing excursions and adjourned to the West Side park.

trook, who reached for it in the air, and threw him out at first. Kling was expected to start the hitting for the Nationals, but went out. Tannehill to Donohue. Brown struck out, the first National to fan. No runs.

Fourth Inning:
Americans—This inning started at the top of the batting list for each side. Hahn went out. Evers to Chance. Jones drove a grounder straight at Brown, and was an easy out at first. Ibbell popped a high fly which Chance pulled down. No runs.

Fifth Inning:
Americans—Hahn struck out. Shekard sent a grounder to Donohue. Altrock, Schulte chopped a high grounder to Altrock, got to first, and stole second when Ibbell dropped the ball. Chance went out on a bouncer, Altrock to Donohue. No runs.

Sixth Inning:
Americans—Altrock walked. Hahn sacrificed. Steinfield to Chance. Jones singled to center. Altrock was put out at the plate. Hoffman to Kling. Jones went to second and moved to third on a passed ball. Ibbell singled to left, and Jones scored from third. Ibbell stole second. Robe was out. Brown to Chance. One run.

Nationals—Kling passed to first. Brown sent the ball past second for a hit. Hoffman sacrificed. Altrock to Donohue. Kling came home on a wild pitch. Brown moved up to third.

Seventh Inning:
Americans—Donohue singled to Brown, the ball bounding off his foot to right. Dougherty hit to Brown, and Donohue was run down between second and third. Brown to Steinfield. Tinker, Dougherty stole second. Sullivan flied to Shekard. Tinker making a great stop back of second.

Eighth Inning:
Americans—Altrock singled down past third. Hahn tried to sacrifice, but forced Altrock. Brown to Tinker. Hahn was out stealing. Kling to Evers. Evers was spiked, but continued to play. Jones was out on a grounder to Chance, unassisted. No runs.

Ninth Inning:
Americans—Evers threw Ibbell out at first. Robe went out on a fly to Schulte. Donohue fanned. No runs.

Nationals—Moran went to bat for Shekard and flied out to Jones. Schulte out on a grounder. Tannehill to Donohue. Chance singled to center. Steinfield flied to Jones. No runs.

Score:
Americans—4; hits, 11; errors, 2.
Nationals—4; hits, 7; errors, 0.
Babe Ruth, 1; Evers, 1; Spencer, 1; and Noonan.

To Send a Team North.
The members of the Los Angeles High School track team have arranged for a dance to be held at Kramer's, Saturday evening, for the purpose of raising a fund for the school athletes to go to the interscholastic track meet that will be held at Stanford next spring. This year the High School was unable to send a delegation to the meet, but the size and success of the event has made the members of the track team extremely anxious to go North in the coming spring, and they are putting forth every effort to make it possible.

Los Angeles, Oct. 9.
Randolph and Oscar Jones fought it out yesterday, and Jones lost through a wild throw by his catcher, Cliff Blahnik. Aside from this little spasm, the big crowd of fans got all they paid for in the way of baseball, and Randolph won because of his good pitching at critical moments.

The light hitting made spectacular plays almost impossible, and yet a number of the assists verged on circus business. Toman and McKune were little Johnnies on the spot when it came to eating things alive.

Bernard was the busy kid in the field, and yet Carlisle stopped a run in the last inning with a fine catch in left. There is little to write about the game, except the way in which Randolph held out when a hit meant a run. He struck out two men in a row in the first inning, when a hit would have scored two or one at least, and had such perfect control that when men did get on bases they died there.

The only run of the game came in the last of the second for us, after two men were out. Brauer flew to center, and Dillon to left, and then Carlisle doubled to right, went to third on Toman's infield bounce that he beat out, and scored when Blahnik made a wild throw to catch him off base.

After the game the fans had the pleasure of seeing Jack O'Brien spar three rounds with little Abe Attell. The score:

LOS ANGELES.

SCORE BY INNINGS.
Los Angeles 1 0 0 0 0 0 0 0 0
Seattle 0 0 0 0 0 0 0 0 0
Base Hits 11 10 11 11 11 11 11 11 11

Two-base hits—Carlisle, Mot.
Left on bases—Seattle 4, Seattle 4.
Bases on balls—O'Jone 1.
Wild pitch—Randolph.
Time of game—1 hour, 55 minutes.
Umpire—Maloney.

Game Today.
The ladies are admitted free to grounds and stands at the stadium game. Burns will probably pitch for the locals and Vickers for Seattle. Game will be called at 2:30 o'clock and the new umpire, Maloney, will officiate.

HAIRBREADTH FROM DEATH.

Runaway Drags a Woman Four Blocks.

Miss Whitney Caught on Pole Hook by Tresses.

During Wild Ride She Takes Out Hairpins.

Dragged for nearly a quarter-mile beneath the pounding feet of a madly dened runaway team, with her hair hooked fast to a ring in the hook of the wagon-pole, Miss Jessie Whitney, the beautiful daughter of Mrs. Ada Whitney of No. 1144 East Twen-

MISS JESSIE WHITNEY, who was dragged four blocks by a runaway.

ty-high street, barely escaped a horrible death yesterday afternoon. Just as the young woman stepped from the meat market at the corner of Adams street and Central avenue, two horses attached to a light rig, dashed along the street, swerved around the corner, and ran directly toward the young woman who was too terrified to move.

Scores of horrified bystanders saw the crazed horses dash upon the girl, but none could lift a hand to save. One of the frenzied animals struck her with its shoulder and she fell under its feet, but as she fell the hook of the wagon pole caught in her thick tresses and she was dragged over the hard road.

Spectators thought to see the bruised and maimed body of the girl lying in the path of the mad horses, but suddenly in the cloud of dust raised the dashing limp form of the maiden as she was hurried along.

HER WILD RIDE
Around from Central avenue the horses sped into East Twenty-fifth street, and their speed increased as they flew. Four blocks the young woman was dragged by the hair, and at every jump she was battered against the horses' legs as her body swayed from side to side with the motion of the team. Never had a woman a stranger ride.

Seeing the peril of the girl a 12-year-old lad ran into the street and the animals had passed Griffin avenue, and brought the horses, which had been hampered by the girl's limp body, to a standstill. Miss Whitney was unconscious.

Hurried to the residence of Dr. W. H. Fox, in an express wagon, the young woman suddenly revived and before the house was reached was able to sit up. She was covered with mud and dust and was unrecognizable.

MIRACULOUS ESCAPE
On the top of her head a four-inch scalp wound was found where the hair had been torn loose. This was the most serious wound, though her body is covered with bruises. The miracle is that no bones were broken.

Though she is confined to her bed, Miss Whitney was able to tell her entire version of the nerve-racking ride. She declares she did not lose her senses once, though she fully expected to be dashed to death any minute.

"I did not see the team coming," said Miss Whitney, relating her experience to a friend. "The horses were upon me in a minute, and I felt myself lifted from the ground and dragged along. I had no fear."

"Suddenly I realized my hair was caught, and my one thought was to get it loosened. I took out the hairpins in an effort to break the hold of the hook, but though I succeeded in removing several of the pins, my hair held fast. Then the horses stopped, and I remember no more."

SAVED BY HER HAIR
Miss Whitney probably owes her life to her beautiful hair. Had she been trampled beneath the feet of the flying team she must have met her death. As it was she escaped serious injury and will be able to be about again in a few weeks.

The news of her remarkable escape spread in the neighborhood, and many called to express congratulations for the lucky ending of the peculiar accident. The young woman has many friends, and is most popular among the younger society folk of the South Side.

Her mother, Mrs. Ada Whitney, is at home sick and the news of the accident was a fearful blow to her, as at first it was supposed her daughter had been fatally hurt. The mother's joy, on learning of the outcome of the wild ride, knew no bounds.

Late last night Miss Whitney was doing well, and no complications are expected. She is most thankful for having passed through one of the strangest experiences mortal has ever been called upon to endure.

LITTLE MOTHER DIES ON TRAIN.

END COMES AS SHE SPEEDS TO MEET HUSBAND.

Five Tots Accompanying Her Are Ignorant of Truth—Fate Prevents Reunion of Pair Long Apart—Mrs. Valenzuela Buys Tickets for Ox-nard, but Takes Longer Journey.

The cold face of a corpse met his warm lips when the husband of Rosa Valenzuela rushed headlong into the Santa Ana train at the Arcade depot yesterday to greet his wife, from whom he long had been separated.

No one on the train dreamed that the woman in black was dead. It was horrible. The other passengers glared at her and made crushing remarks about women with noisy children for her benefit; but she did not care.

The train was hot and sultry. The woman in black got on at Santa Ana with tickets for Ox-nard. With her were five little children whom she huddled into the seats. About the woman's head and neck was a Spanish rebozo, which hid her features.

The children got hot and noisy; they were quarrelling in the aisles and crying. The little one was clinging to her mother's knees and wailing pitifully. To the indignation of the other passengers, the woman in black did not so much as turn her head. She sat slumped down into her seat as though she were asleep.

HEEDS NOT THEIR IRE
When the conductor passed through the car, a woman with a sharp nose requested him in a little peevish, snappy voice to ask "that woman" to keep her drien quiet. The conductor leaned over and asked her to be quiet, but she did not as much as look up. He shrugged his shoulders and passed on.

The woman with the illuminated nose raised her head and made a crushing remark about women who make their children a nuisance to all creation, but the woman in the black rebozo did not look up and turn around.

One of the little children was crying out something in Spanish, but no one could understand. One of the passengers shook the little thing, and told her to behave herself and keep still. But the woman in the black rebozo paid no heed.

For a long time before the train roared in at the Arcade depot, a Mexican in store clothes had been patiently waiting about the station. Occasionally he would approach one of the depot officers and ask softly if the Santa Ana train was in yet; when would it be in? Mucho gracias.

WARM HEART AWAILS
His face was beaming when at last with a roar and a hiss the giant train snorted in under the big arcade. He waited at the gate, anxiously, until all the passengers seemed to have left the train. The officer at the gate let him go through, and he slipped through across the broad platform, dodging baggage trucks.

Some one told him which was the Santa Ana train, and he climbed hesitatingly onto the platform. The cars were almost empty by this time. In one of the rear cars, he saw his children. He heard them before he saw them. They were clinging about their mother's knees and crying.

He brushed them aside and caught up the slender figure of the woman. As his lips met hers, he dropped her in horror. She sank in a heap on the seat, and nodded crazily and drunkenly at him as she slipped from the seat to the floor.

His cry brought the train men back into the car. They saw that the woman in black neglected her children being crying and screaming.

No one knows when she died, or how. It is supposed that she died of stomach trouble. There was no mystery about the case, Coroner Trout issued a death certificate and allowed the body to be taken to Garrett's undertaking parlor.

JEERED "NIGHTIES"
Youths in Tails for Insulting Women Who Dashed Thirly Glad to Suppose Fire.

How Roy Lipsey and Max Humphrey could have so forgotten themselves as to offer to "knock the block off" a lady who was running to a fire in her nightie is a matter of painful solitude to Justice Young.

They are alleged to be members of a gang of boys who disturb the serenity of the country about Evergreen Cemetery.

They are accused by Deputy Sheriff Henry Gottlieb of standing in front of his house early yesterday morning and making a noise like a fire. It was on a few minutes past midnight, Herr Gottlieb was sleeping. His wife and two young lady daughters awoke, however, and rushed out, half dressed.

WHERE THE GREATEST DAMAGE BY FIRE WAS DONE.

Appearance of main room of the Citrus Union on sixth floor of the Chamber of Commerce building after the fire.

LOSS BY FIRE YET UNCERTAIN.

RAVAGES OF WATER GREAT AT CHAMBER OF COMMERCE.

Much Plaster May Fall from Walls and Ceilings of Offices in Path of Deluge That Followed Blaze—The Precious Relics Escape Damage. Tenants Cheerful.

When most of the water had run off and some of the debris had been cleared away, it was found yesterday that the damage due to the stubborn fire in the top floor of the Chamber of Commerce building the night before was likely to be less than has been estimated.

The loss to tenants on office furniture and fittings was apparent at a glance; the great hole eaten by the fire into the rear of the sixth floor told of the ravages that would be needed to restore the building to its former condition, but there was no way of determining just how greatly the water had damaged the walls in the rear of the building.

Hundreds of square yards of plaster on ceiling and side walls on the third, fourth, fifth and sixth floors are soaked thoroughly, many of the big plaster columns in the exhibit rooms of the Chamber of Commerce on the second and third floors are drenched, and the amount that will fall off, or that will have to be removed, can be determined only after the process of drying has advanced.

The greatest damage was in the offices of the California Citrus Union, which occupied almost the entire rear portion of the sixth floor, as well as a number of rooms on the south side of the building. Office furniture, typewriters, files of correspondence, and miscellaneous matters were ruined by the flames and water. Fortunately, the valuable records of the fruit-shipping concern were protected in fireproof vaults, and business was resumed under difficulties yesterday morning.

Several small offices in the rear of the sixth floor suffered severely by fire and water, while the loss to the Thorpe Engraving Company, the operating rooms of which are on the seventh floor, front, will amount to at least \$2000. This loss is due mainly to the heavy black smoke that permeated the rooms, destroying valuable photographic plates and engravings.

This company's plant started up under a handicap during the day. In the rear offices on the fifth floor the occupants were obliged to tear up floor coverings and to move furniture because of the flood that had soaked down through the ceilings during the night, while even on the fourth floor the City Board of Education was obliged to abandon its quarters because of the drip, drip, drip of the water. School headquarters have been removed temporarily to the directors' rooms of the Chamber of Commerce, on the second floor. In all of the tenants built up cheerfully under the trying conditions and hastened to restore their quarters to rights.

Annually a somewhat disordered, the big exhibit of the Chamber of Commerce on the second and third floors was practically unharmed. The price, to the extent that the exhibit was in any manner. Not even the toes of the ancient walnut elephant were dampened. The big plaster columns in the exhibit rooms were wrecked, however, and it may be they will have to be replaced. Visitors were denied entrance to the exhibit rooms yesterday, but they soon will be reopened to the public.

H. S. McKee, vice-president of the Los Angeles Trust Company, which acts as agent for the Chamber of Commerce building, said yesterday that the damage to the building could not yet be determined. He thought \$5,000 would cover the entire loss to tenants and to the owners of the building. The latter are expected to pay for the damage to the building, but the loss in rentals due to the fire will be replaced.

The excellent fire-alarm system in the building, in the opinion of Mr. McKee, resulted in bringing the fire department promptly, and gave the firemen an early opportunity to prevent a greater spread of the flames. Quickly following the turning in of an alarm by citizens on the street, the night watchman in the building sent in a call from one of the fire boxes in the building, and many pieces of apparatus were quickly on the scene.

AFTER ACANTHOPTERYGIANS.
James W. Jump of St. Louis, is in the city with his wife and family. Mr. Jump will remain here for a couple of weeks and return to St. Louis after a few days at Catalina. Mr. Jump is a sales manager of the Peters Shoe Company, and is an enthusiastic deep-sea fisherman. He has to his credit one of the biggest sea bass ever caught "off" Catalina with a rod and reel. His family will take a house here during the winter.

Head of stairs and wreck of file room of the Citrus Union after the fire.

DECLARE GOODIN IS THE GOBBLER.

THE affairs of the Eureka Mining and Milling Company, which have been in a muddled state for the last few months and in which the name of Frank C. Goodin appears as the original "Pook Bah," have at last got into court. Yesterday Anna P. Reid of Orange, N. J., a stockholder in the concern, filed a bill of complaints in the United States Circuit Court asking that Goodin be held in court and compelled to give an accounting of some 197,000 shares of treasury stock which, she alleges, he secured through fraud.

The Reid woman is backed by a number of other stockholders who claim that the affairs of the concern have been gobbled up wholly by Goodin, and that he has sold stock estimated to amount to \$22,000, and that he has put this sum in his own pocket, much to the discomfort and inconvenience of the stockholders.

The suit is the culmination of several futile attempts to secure a quorum of the board of directors of the concern and several similar attempts to make Goodin disgorge his alleged fraudulently secured stock.

The company did not start off with the brilliant rush that was expected and when the 200,000 shares of stock were offered for sale, only 200 shares were taken. The remaining 197,000 shares reclined in the treasury of the company.

The company owns mining property, said to be quite extensive, in the State of Zacatecas, Mex., and this property needed working to make flow the gold stream long expected by the stockholders. The \$3000 obtained by the sale of the stock would not suffice to do the work and after divers and sundry ways and means were discussed and rejected, Goodin in the role of benefactor asked the other directors in the Eureka company to come over to him the 197,000 shares, or, practically, the entire company. In return he would furnish sufficient money to operate the company's property.

A meeting of the board of directors was held April 4, 1906, and, after considerable delay, the 197,000 shares of stock were turned over to Goodin. In the complaint filed yesterday morning the Reid woman states that the meeting of the board of directors was not regular as there was not a quorum present and that the minutes of the meeting were not subscribed upon the books of the company until about ten days after the meeting.

Goodin seems to have been the original stock salesman for, immediately after he secured the stock of the com-

pany, which was capitalized at \$400,000, the sales increased wonderfully. Goodin is charged with selling to Mary B. Scott, through his wife, Nellie S. Goodin, a block of 8000 shares for the sum of \$2000; to G. L. Kyles, 6000 shares for \$1000 and to Granicher, 6000 shares for \$1000. There seemed to be a fluctuating value attached to the stock by Goodin, for the next sale he is charged with making with it an advance in price of 400 per cent. The first shares went out at 25 cents a share, but the price which H. T. Cowley, another alleged purchaser, paid was \$1 per share for 1000 shares.

The sales of stock by Goodin went on, according to the allegations, but, while money was coming to Goodin, the company treasury still remained bare.

It is charged that the total moneys secured by Goodin through the sale of this stock will total about \$22,000 and that, in addition to this, he made a present of 20,000 shares of stock to his wife for which he received no money.

Orlando B. Hardy, president of the Eureka concern, had been spending most of his time at the company's properties in Mexico and received from Goodin what money he needed for his own expenses. He was not present at the time the meeting of directors was held to award the 197,000 shares to Goodin and has thrown his influence on the side of the complaining stockholders to oust Goodin from his control of the company.

The complaint asks the court to issue a restraining injunction against Goodin, prohibiting him or his wife from disposing of the stocks and cash that are said to belong to the Eureka company, pending this litigation.

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

City Librarian Lummis and a bevy of his young lady assistants appeared before the Civil Service Commission yesterday and protested against the attendance of the commission at the examination after they have held the places from one to three years. Order for examinations may be revoked.

The Board of Public Works is trying to evolve a plan for the caring for waste papers in the downtown district.

The demand of contractors for permission to excavate under alleys calls for a new ordinance, which will be presented to the City Council on Friday.

B. F. Ford signs up a contract for an extensive sewer district in the southwestern part of the city.

The Police Commission declares its policy will be to grant no restaurant liquor licenses where saloons are adjoining or in the same building.

Judge Smith and Dist. Atty. Fredericks yesterday afternoon, after the examination after they have held the places from one to three years. Order for examinations may be revoked.

Anton Besold is not to be tried on the indictment returned against him by the grand jury. A complaint charging murder has been filed against him, and the ordinary and much after mode of procedure will be followed.

At the City Hall.

NO POOLROOMS IN NINTH WARD?

LARGE PROTEST AGAINST 1880-ING PERMITS.

Police Commission Clearly Outlines a Policy of Granting no Restaurant Liquor Licenses in Connection With Saloons, and Denies Two Applications of This Character.

The Police Commission last night promptly turned down two applications for restaurant liquor licenses in cases where there were saloons in adjoining buildings, and it clearly outlined its policy to grant no such licenses in combination with saloons.

The men turned down were Paul Giamper, who wanted a license at 121 North Main street, and who conducts a saloon next door, and Rudolph Gahm, who wanted a license at 125 East Seventh street, where there is a saloon in the same building.

But while the commission was prompt to turn down these applications, it did not come to a decision as to the application of O. J. Hayward for a permit to establish a poolroom at No. 214 East First street.

While Hayward had all but three property owners in his block on his petition, there came up a protest, signed by 150 residents of Boyle Heights, in which they declared their opposition to poolrooms and billiard halls that "they are a menace to society, corruptors of young men and boys and a general nuisance, and therefore we do not want any of them."

The matter was held over for one week.

The application of George Magica for a restaurant license, which has been held up for the reason that the proposed location, No. 131 East Fourth street, is directly across the street from a young ladies' home, was continued another week.

A restaurant liquor license was granted to W. H. Odick for No. 131 West Second street, and the license for No. 225 West Fifth street was transferred to Lips & Zedrick.

J. E. Works, attorney for Stanley Wilson, who is asking for the dismissal of Officer Fred Arguello from the police force, appeared before the commission in behalf of his client, and hearing of the case was set for next Tuesday evening after the routine business has been transacted.

The commissioners appointed M. S. Burns as special police for the Los Angeles Soap Works; Stephen H. Tinkler for the Imperial Hotel; John E. Robbins for the Grand Opera-house; and Harry O. Betworth for duty in a residence district.

On recommendation of Chief Auble, Special Policeman S. M. Jamison was dismissed from the force. The resignation of Special Officer R. E. Rogers was accepted.

The commission appointed as regular patrolmen, from the central district, service lists, William M. Albridge, Bernard C. Craft, George E. Kennedy and William E. O'Brien.

A request from the Ninth Ward Improvement Association that a police station be established in Boyle Heights, and that the police be placed in that district was referred to Councilman Blanchard of the Ninth Ward.

The following is the list of employment agencies and their proprietors to whom the commissioners authorized the issuance of permits to conduct business: Ida O. Hays, 305 S. Main street; P. Montana, No. 404 North Main street; Western Employment Agency, W. J. Zink, proprietor, No. 124 East Second street; Hummel Brothers & Co., No. 116 East Second street; Hansen Employment Agency, C. W. Jenks, No. 20 East Second street; Marks Employment Agency, George C. Marks, proprietor, No. 122 East Second street; Jacob Samson, No. 20 East Second street; Reed's Employment Agency, Esther Myers, No. 205 S. Main street; Anchor Employment Agency, E. M. Street and W. A. Higgins, proprietors, No. 24 South Broadway; Hawley & Forrester, No. 214 South Broadway; Broadway Employment Office, Miss Black and Miss Smith, No. 316 South Broadway; Marks Employment Agency, No. 216 West Fourth street; Henderson Employment Agency, P. E. Henderson, proprietor, No. 455 South Broadway; Kane & Fukutomi, No. 304 South Hill, and No. 112 West Sixth street; Climate Employment Agency, D. E. Cassell, No. 322 West Seventh street; S. Takemura, No. 322 West Seventh street; Anderson Cooperative Association, Mrs. Anderson, proprietor, No. 404 East Ninth street; American Employment Agency, F. H. Cronin, proprietor, No. 415 East Ninth street; T. A. Anderson, proprietors, No. 715 Wall street; Big Four Employment Agency, M. A. Fitz, proprietor, No. 603 South Main street; Buckeye Employment Agency, F. P. Mattione, proprietor, No. 263 East Second street.

City Hall Notes.

The City Council has approved the recommendation of the Board of Pub-

lic Works that another janitor be appointed to assist in caring for the City Hall, because of the increased work since the third floor has been used for city offices. The additional janitor will receive a salary of \$56 per month.

J. C. Barron, superintendent of the city sewer, has filed a bond in the sum of \$500 with the Board of Public Works for the faithful performance of his duties. Barron collects an average amount of \$500 per month for the city from the sale of sewer water.

W. S. Pelouzet, book-keeper in the City Engineer's department, has resigned to accept a position with better salary. His place will be taken by M. Mosello, who has been attached to the reclamation service.

Reference to the project of opening and widening Short, Fourth street from Third and Alameda streets eastward made an inspection of the grounds for the project. The project is composed of Alexander Carpenter, Dr. W. B. Coccarin and R. M. Allen, and their hearing of the case will take place at the City Hall Tuesday forenoon. The plan provides for the widening of the street twenty feet and opening it through the present unimproved section.

Park Superintendent Morley is preparing to continue the work or filling the southern portion of Echo Park, so that it can be used as a playground for children's playgrounds. This has been delayed because of the construction of a storm drain through that section of the park.

Property owners on Fifty-fourth street have petitioned the City Council to allow them to continue the improvement of that street with natural soil treated with oil.

Charles Wilde and David Carroll, deputies of the City Clerk's office, are at Santa Barbara in attendance at the sessions of the High Court of the Foresters.

Civil Service Commission.

When the Civil Service Commission convened yesterday noon it was confronted by an indictment bevy of young ladies, attendants from the Public Library, and Librarian Lummis, who wanted to protest against the rule of the commission requiring attendance at another examination as to their qualifications for these positions.

Librarian Lummis declared that these young women had served acceptably for periods from one to three years, and that this of itself was sufficient evidence that they were qualified for the positions. The young ladies also voiced their disapproval of the demands of the Civil Service Commission. The commission set the time for attendance examinations at 10 o'clock, but in the meantime the subject is referred to Attorney Frank Fredericks, who is a member of the commission, and it is quite probable the proposed examinations will be ruled out.

The commission adopted a new standard for height and weight of members of the fire department. Hereafter the minimum height for firemen will be 5 feet 7 inches instead of 5 feet 6 inches, as formerly. The minimum weight for a fireman of this height is 140 pounds, and the maximum weight for this height is 180 pounds.

A letter from the Water Commission requested the Civil Service Commission to purge the eligible lists of laborers of all names of persons who have been in the lists for more than two years; as it is reasonable to infer that men who had their names on the lists longer than two years and have not yet been employed would have secured other occupations, and would not be available when emergency men are wanted by the Water Department. This action will be taken.

On request of the City Engineer, several civil engineers from Fuma were allowed to take the civil service examination without having filed the usual eight days' notice of their intention to take such examination.

Stock Yards in Demand.

Councilman Healy stated yesterday that the request for the passage of the new stock yards ordinance, which covers all these concerns into the Eighth Ward, has already had a noticeable effect on the real estate market. He said that the ordinance would be a desirable thing for the ward.

Excavations Under Alleys.

The application of builders who wish to excavate one-half of the alley at Fourth and Los Angeles streets in the same manner as the alley between the streets, which property owners are allowed to excavate under sidewalks or streets has brought to the attention of the Board of Public Works the fact that there is no provision made in the city's ordinances for the issuance of such permits. In the past, the Board has heard of the discussion, it is claimed that the Edison Electric Company has made a similar excavation to the one desired directly across the alley between Santa Barbara avenue, Santa Monica avenue, Normandie street and Western avenue, and that the company is now planning to excavate under the alley between Santa Barbara avenue, Normandie street and Western avenue, and that the company is now planning to excavate under the alley between Santa Barbara avenue, Normandie street and Western avenue.

More Street Work Planned.

Ordinance of the Board of Public Works, which has been ordered by the City Council for the improvement of sections of Edgeware Drive, Hoover street, Thirty-third street, Alameda street, Normandie street, Avenue 19, Santa Barbara avenue, Wallace avenue, Boston street, Torrance Drive, Adair street, Santa Monica avenue, Western avenue, Toberman street and Hobart boulevard.

Another Office to Be Filled.

As Gas Inspector Jordan has resigned in order to accept a position with the People's Gas Company, there will be a vacancy in the city's gas department. This is an appointive office, and the Mayor will name an emergency appointee until one is certified by the Civil Service Commission. Having passed the necessary examinations, the office carries a salary of \$150 per month.

Bids for Improvements.

The proposed improvement of Dorchester Avenue from Normandie street to Jasmine street, has brought to the Board of Public Works three bids. The bidders are J. Hehn, the Western Pacific Company, and Cummings. The lowest bidder is J. Hehn, who offers to do the grading and graveling for \$4.50 per lineal foot; 27 cents per lineal foot for cement curb; 33 cents per square foot for redwood curb; 12 cents per square foot for gutter, and 15 cents per square foot for sidewalk.

Washington Street Paving.

The Board of Public Works has received bids from the Barber Asphalt Company and the Western Paving Company for the paving of West Washington street from Grand avenue to Western street.

Paving Company's bid is slightly lower than that of the other concern, and the figures it submitted are: For paving, 16 1/2 cents per square foot; 25 cents per lineal foot for cement curb; 37 cents per square foot for gutter; 15 cents per square foot for sidewalk, and \$3.50 each for culvert.

Adjourned Council Meeting.

An adjourned meeting of the City Council will take place at 2 o'clock on Friday afternoon, at which time the proposed concrete ordinance, the city engineer's report on the sewer, and other matters will be considered.

Another School Nurse.

The City Council has passed an ordinance providing for the appointment of another school nurse, in accordance with the recommendation of the Board of Health. It also provided that the salary of the cook at the small hospital shall be \$50 per month exclusive of her board, and that the cook shall draw wages at the rate of \$2 per day.

AT THE COURTHOUSE.

HAS HIS SAY TO HIS HONOR.

DISTRICT ATTORNEY MAKES HIS POSITION CLEAR.

Replies to Strictures of Judge Smith Made on Monday Regarding Continuance of a Case—Court Points Out That Crime Is on the Decrease.

Despite the inflow of criminal business into the court, the criminal Department One of the Superior Court is almost clear, and the fact was accentuated yesterday, when Dist. Atty. Fredericks made a statement in open court.

This statement came in the nature of a reply to a few sharp and preposterous remarks made by Judge Smith, on Monday, to Maj. Donnell, when it developed that the case set for trial on that day could not be tried, though the term-trial jurors were in waiting. The court deprecated any such manner of delaying cases, and refused to listen to the explanation of Maj. Donnell.

On Monday morning Mr. Fredericks moved the dismissal of the case, and in moving the dismissal of the case, "I desire to call the court's attention to the condition of our calendar. We have just twelve cases on the calendar, and of the greatest county in the State of California. An examination of the calendar shows that we have from forty-five to sixty-five cases pending in each department."

"I am very sorry for them," interjected Judge Smith, "but I believe," continued Mr. Fredericks, "that the fact that this calendar is in such a condition is caused by the expeditious manner in which the criminal cases are investigated and handled by the District Attorney's office."

When this was said, every one in court looked up and began to pay attention.

"Then you don't give the court any credit for it?"

The judge of this court has been here for the last year or so, and he has replied Mr. Fredericks, "and during that time there has been any where from twenty-five to seventy-five criminal cases on the calendar. The policy seems to have been to try all cases filed, no matter how trivial. It is our policy, when we find that we have no case, to move its dismissal and save time and money. We are extremely happy when we can ascertain this fact in time to prevent the return of a jury, if, however, we do not ascertain that fact until the jury is called, we have no choice but to try the case, and we will move for its dismissal as soon as we can."

"We understand that, when the jury is ordered back, it is an expense, and it is an expense to the county of Los Angeles, being responsible to the county of Los Angeles for the expense of the jury, but to the county. The court can have no means of knowing whether a case is ready for trial, and whether it is ready, and are willing to assume the responsibility before the people of the county of Los Angeles, being responsible to the county of Los Angeles for the expense of the jury, but to the county. WEDNESDAY, OCTOBER 10, 1906.

DIVIDENDS ADD TO PROSPERITY.

BETTER PRICE FOR OIL MEANS RENEWED ACTIVITY.

Control Oil Company Declares Quarterly Payment of Profits—In-creased Consumption Threatens Shortage of Crude—Value Per Barrel Doubles Within a Year.

The Control Oil Company of Los Angeles has declared its regular quarterly dividend payable on October 25, amounting to an aggregate of over \$250,000.

There could be no better evidence of the sound management of this company than the regular payment of dividends amounting to so large a sum during the period of great depression which has prevailed in the oil business for the past few years. Happily for the producers, conditions now have changed, prices being very high, if not quite double what they were a year ago.

Oil values have increased rapidly during the present year. The conservative estimates of the company for all purposes, including the large foreign contracts, place the total at not less than \$1,000,000. The company has been informed by the oil men that the production for the same time last year was \$200,000 to \$250,000, leaving a shortage of \$750,000 to \$1,000,000 barrels for the year.

OIL VALUES INCREASE.

Oil of good quality is sold at from 75 to 78 cents per barrel at the well, and consumers are not objecting to these prices. It still furnishes the cheapest fuel, also because they realize that it will be continued.

Oil companies are also rushing work in the South. The oil fields and great activity in the Whittier, Fullerton and other fields as well as in the local oil men, as already told in Times, predict a most prosperous year.

OIL STATISTICS.

PORTS' EXPORTS.

Just been issued from the report of the Bureau of the Department of Commerce and Labor concerning the domestic mineral oil from ports during the month of September.

4290 gallons of naphtha, valued at \$1340; 792 gallons of oil, valued at \$211.

270 gallons of naphtha, valued at \$810; 485 gallons of illuminating oil, valued at \$1837.

From San Diego were: 772 gallons of oil, valued at \$211; 16,153 gallons of illuminating oil, valued at \$537.

From San Francisco were: 772 gallons of oil, valued at \$211; 16,153 gallons of illuminating oil, valued at \$537.

From Alaska from Puget Sound, 27,420 gallons of illuminating oil, valued at \$2222; 5483 gallons of oil, valued at \$2288.

From Alaska from San Francisco, 27,420 gallons of illuminating oil, valued at \$2222; 5483 gallons of oil, valued at \$2288.

From Hawaii, 2,330,000 gallons of oil, valued at \$24,000; 13,180 gallons of illuminating oil, valued at \$2150; 6906 gallons of lubricating oil, valued at \$2371. Shipments to the same port of lubricating oil, valued at \$245.

From the Hawaiian Islands, 2,330,000 gallons of oil, valued at \$24,000; 13,180 gallons of illuminating oil, valued at \$2150; 6906 gallons of lubricating oil, valued at \$2371. Shipments to the same port of lubricating oil, valued at \$245.

From the Hawaiian Islands, 2,330,000 gallons of oil, valued at \$24,000; 13,180 gallons of illuminating oil, valued at \$2150; 6906 gallons of lubricating oil, valued at \$2371. Shipments to the same port of lubricating oil, valued at \$245.

From the Hawaiian Islands, 2,330,000 gallons of oil, valued at \$24,000; 13,180 gallons of illuminating oil, valued at \$2150; 6906 gallons of lubricating oil, valued at \$2371. Shipments to the same port of lubricating oil, valued at \$245.

From the Hawaiian Islands, 2,330,000 gallons of oil, valued at \$24,000; 13,180 gallons of illuminating oil, valued at \$2150; 6906 gallons of lubricating oil, valued at \$2371. Shipments to the same port of lubricating oil, valued at \$245.

From the Hawaiian Islands, 2,330,000 gallons of oil, valued at \$24,000; 13,180 gallons of illuminating oil, valued at \$2150; 6906 gallons of lubricating oil, valued at \$2371. Shipments to the same port of lubricating oil, valued at \$245.

From the Hawaiian Islands, 2,330,000 gallons of oil, valued at \$24,000; 13,180 gallons of illuminating oil, valued at \$2150; 6906 gallons of lubricating oil, valued at \$2371. Shipments to the same port of lubricating oil, valued at \$245.

From the Hawaiian Islands, 2,330,000 gallons of oil, valued at \$24,000; 13,180 gallons of illuminating oil, valued at \$2150; 6906 gallons of lubricating oil, valued at \$2371. Shipments to the same port of lubricating oil, valued at \$245.

Seventh street, 68 feet at the reported price of \$2000 a foot. The reported price seems too low.

The southwest corner of Ninth and Hill has been sold by John R. Vogel at something like \$2500 a foot. It is a forty-five foot lot.

A lot 60x110 feet on the northeast corner of Grand avenue and Seventh street has been sold by Philip Fohlman for \$160,000.

No. 324-326 Asusa street, 75x134 feet improved with three cottages, has been bought by the Empire Steam Laundry with the intention of improving at an early date.

The northeast corner of East Fortieth street and Eureka avenue, 51x135 feet, improved with well rented cottages, and a two-story frame store building with apartments above, has been sold by Albert Pitzer to A. M. Love, \$18,500.

A six-room bungalow, No. 623 De-
lancey street, has been sold by Ella R. Nevin to G. I. French who buys for a home, \$3000.

These sales were made by Nevin & Taylor.

Wright & Callender Company have sold 1053 South Figueroa street, a lot 6x115, improved with a two-story house and cottage for yesterday, \$25,000. On West Pico street near Star, for M. A. David to D. A. Warner, a lot 50x125 feet, improved with a cottage, and for F. A. Clark to same buyer, an adjoining lot of the same size at \$15,000 for the two parcels. For E. L. Louman to Robert G. Newstadt a lot 60x167 feet on the north side of Wilshire boulevard, between Miami and Monica, for \$4000. This lot is vacant.

The Priest ranch at Duarte, 345 acres, two miles east of Monrovia, has been sold to Joseph Loftus and others for \$16,000.

Col. Marble and His Son Sell Their Interests in the National Bank of California.

At the regular monthly meeting of the board of directors of the National Bank of California, yesterday, Col. John M. C. Marble tendered his resignation as president and director, which was accepted.

The entire interest of Col. Marble and John E. Marble, or 2965 shares, have been taken over by J. E. Fishburn, W. D. Woolwine, R. I. Rogers and others at a price said to be \$500,000. John E. Marble will remain with the bank for a short time and will later, with his family, make a tour of Europe.

J. E. Fishburn was elected president of the bank to succeed Col. Marble. He was for two years president of the Clearinghouse Association and is a member of the Clearinghouse Committee.

W. D. Woolwine, who becomes vice-president and cashier, was for five years cashier of the Southern California Savings Bank, then cashier of the Los Angeles National Bank. He will continue a director of the Southern California Savings Bank when it moves to the southeast corner of Fifth and Spring streets, at which time the National Bank of California will move into the quarters vacated by the Security Savings Bank in the Herman W. Hellman building.

R. I. Rogers, who will become cashier of the National Bank of California, was director and cashier of the First National Bank of Pasadena.

Frank J. Belcher, Jr., is assistant cashier. O. H. Churchill again becomes a director, and F. W. Braun becomes one of the new members of the board. H. W. Frank, of Harris & Frank, also was elected a director of the bank.

The bank has just increased its capital stock from \$200,000 to \$500,000, and has a surplus in excess of \$100,000.

CHINESE "RARE-UP"

Definite Objection Comes to Display of Man-Killing Relics on the Junk Whang-Ho.

Li Yu Hsing, a native of Canton, China, has written to W. M. Milne of Los Angeles a letter telling him that the high officials and a guild of the province of Nanking have raised strenuous objections to the Whang-Ho, a Chinese war junk, being brought to the Pacific Coast for exhibition, together with a number of beheading knives and torture racks.

It will be remembered that the pictures of several instruments and scenes of torture published in The Times aroused the ire of the Chinese officials, and they made a protest to the United States government at Canton against the display of the torture racks in this country. The latter received yesterday was the first direct statement received from China relative to the actions and contentions of the Chinese.

The letter reads in part: "The high officials and the united guilds of Nanking have determined to prevent the foreign pigs from exposing the Keelung (starvation case), and the criminal's rest (torture case) on the ship you took away from here. They will not quiet until this business is ended. Every official is displeased and say you shall stop, for they have power."

The writer is a personal friend of Milne, and was educated in the United States.

Profits for You

When We Make a Promise We Keep It

SIMPLY THIS. We are forming a syndicate to buy on the "share-and-share-alike" principle a magnificent tract of high, level land in the Southwest, on projected car line, and which is bound to double and treble in value before long. Commands a fine view of city and has abundance of water. This is a veritable snap, and as "snaps" are mighty hard to get, don't delay one minute, but come in and get the data. It is \$300 per acre cheaper than anything else in the neighborhood.

We want a few responsible parties to take an interest with us in this deal. We have made lots of money for others and ourselves, and we surely can for you. We are conservative in our estimates and recommendations and our past success speaks for itself. If you want a really first-class, gilt-edge investment, close in, with the assurance of a big, handsome profit, see us at once. Only a very few shares left.

It is Easy

To brand a beer "Pure," but actual purity means to double the cost of the brewing. That is how we attain it.

Schlitz beer is brewed in absolute cleanliness, and cooled in filtered air. Then it is aged for months to avoid causing biliousness, then filtered through white wood pulp. Then every bottle is sterilized.

That is why Schlitz is unique for its purity.

Ask for the Brewery Bottling.

Common beer is sometimes substituted for Schlitz.

To avoid being imposed upon, see that the cork or crown is branded

MRS. BARNUM THEIR CHOICE.

Women of Parliament Select
Her for Leader.

Vote Will Come at Closing
Session Today.

Great Interest Displayed in
Opening Meetings.

The difficult task of selecting a new president for the Woman's Parliament of Southern California was practically solved before adjournment yesterday, Mrs. O. Shepherd Barnum being the unanimous choice of those concerned in the selection.

Every effort has been made to persuade Mrs. J. D. Gibbs, who has so successfully served the parliament during the last four years to occupy the chair another term, but this she has persistently and consistently refused to do on the ground that the honor should be passed on to some one else at this date.

Mrs. Barnum has been prominent in club affairs for several years and the choice of her name to head the list of officers to be voted upon this morning meets with general satisfaction.

The Nominating Committee and the officers preserved a stolid silence with

MRS. O. SHEPHERD BARNUM,
whose name is urged for the presi-
dency of the Women's Parliament.

occupied the greater part of the morning after the invocation had been delivered by Rev. Hugh K. Walker. The greeting of the day was given by the vice-president at large, Mrs. Lucy S. Blanchard. Luncheon was served at the Hayward and the afternoon was given over to Mrs. Arturo Bandini of Pasadena and George W. James, who talked of matters pertaining to the needs of the California Indians.

PASSING OF THE INDIAN.
Mrs. Bandini described the condition

Mrs. Hugo A. Kiefer, Misses Estelle and Lillian Williamson and Miss Pearl King, who are serving as ushers at the Woman's Parliament.

respect to their deliberations yesterday, but their sentiment was betrayed in the caucuses and unless Mrs. Barnum reconsiders the matter before noon she will serve as head of the organization for the next term.

Mrs. Barnum has been especially active in the women's campaign against impure foods, and her knowledge of the chemistry of foods has made her demonstrations convincing and practical. She was for a time instructor of English in the State Normal School. The pleasure expressed at Mrs. Barnum's candidacy by this large body of women indicates the esteem in which she is held throughout Southern California.

The parliament was treated to a visit from Ellen Beach Yaw yesterday afternoon, and with the unaffected generosity which has always characterized her, she consented to sing several numbers. Her reception was warm and her offerings were received with no less appreciation from the fact that her visit was unexpected.

Mrs. Gibbs, the presiding officer,

of the suffering tribes pathetically and vividly, giving a history of conditions upon the reservations since the decline of the glory of the missions. But seventy-five years ago these missions were at their best and the artistic and capable Indians who were housed about them numbered in the neighborhood of 75,000. Now there are not more than 3000 of them in the Southern counties.

The dissolution and destruction of the tribes began with the secularization of the missions by the Mexican government. Each Indian was to have 1/2 an acre of land while the padres were sent away, but immediately the looting of the mission by greedy officials began. The Indians were scattered and often destroyed. The scattering of land which began then has been carried on ever since, said Mrs. Bandini.

After the publication of Mrs. Jackson's "Century of Dishonor" and "Ramona," Congress appointed Mrs. Jackson and Mr. Kinney to investigate conditions but their report was never acted upon. The Warner ranch affair a short time ago brought matters to the attention of President Roosevelt and things have been gradually bettering themselves since.

SOME HELP IN SIGHT.
In 1905 was passed the law providing for a special officer to look into the needs of the Indians, and C. E. Kelsey, the appointee, said the speaker, has proved a most satisfactory man for the place.

At Campo about forty families are crowded upon space which would commonly be sufficient for the support of not more than two white families. The sum of \$100,000 was voted by the last Congress for the relief of the tribes and this will be spent under the direction of Mr. Kelsey. Field matrons and physicians are most needed.

The Sequoia League buys all the baskets made by the Campo Indians and the revival of the art of basket making through the encouragement of those interested has helped provide a way for the Indians to assist themselves.

Miss Mamie Robinson, a field matron and teacher among the Campo, spoke briefly and seconded the plea of Mrs. Bandini for Christmas boxes, which should be sent early in the season, and clothing of all kinds, as well as uncut goods.

Mrs. Bandini attuned her auditors to a sympathetic appreciation of the subject which she presented by opening her paper with a reading of the poem, "The King's Highway," by John S. McGroarty, which so delightfully embodies the sentiment with which the hallowed missions and their founders are regarded.

In the evening a reception to delegates was held in the First Congregational Church, where the parliament is holding its sessions, and a splendid musical programme was given under the direction of Mrs. William John Scholl. Miss Josie Kinsinger, harp soloist, furnished a pleasing part of the programme to which other well-known musicians contributed delightful numbers.

Prof. James discoursed on the pedigree of Indian baskets.

Miss Yaw in a few words of affectionate greeting and after the first number bestowed upon her a large rose from the beautiful cluster before her with the request that she wear it over her heart in token of the fact that the sweet singer herself was so enraptured within the hearts of the audience present.

In response Miss Yaw stepped forward and sang without accompaniment "The Last Rose of Summer." At the conclusion of her number, Mrs. Gibbs presented her with the beautiful basket of roses at her feet.

Reports of officers and delegates oc-

ARE YOU FROM MISSOURI?

Then give us a chance to "show you" that the lots we are selling in our beautiful Glendale Valley View Tract are the cheapest and best in that beautiful suburb. Cement walks and curbs, streets graded and to be oiled, electric light wired, gas plant now being installed, purest mountain water, and lots of it, piped to every lot, building restrictions, churches, schools, library, stores, splendid car service with 7¢ fare. All this for from \$850 to \$325, and on easy terms, without interest or taxes. Costs nothing to be shown. Come in and go out today. 107 lots sold last month.

"Where the Cars Start."

\$1.84 IN EVERY PACKAGE

We do not mean that \$1.84 in currency is actually enclosed in each package of Pillsbury's Best Breakfast Food—Vitos. But we do mean it saves you that much over the ready-to-eat kinds. Besides you get "Pillsbury" quality, and that's always the best. A package containing two full pounds costs 20 cents. When prepared it makes 12 pounds. The ready-to-serve kinds, containing about 7/8 of a pound to the package, cost 15 cents. A full pound would cost about 17 cents. 12 pounds would cost \$2.04. So the difference between 20 cents and \$2.04 indicates the saving when Vitos is used—\$1.84. Use Vitos regularly. Put \$1.84 in the bank every time you buy a package. Vitos is a delicious food, it is the "White Heart" of the Wheat berry—the very life of the grain.

Pillsbury's Best Breakfast Food

EVENTS

JUST now Miss Adelaide is one of the busiest of young women. She is to be married in November, and friends are all preparing a wedding for her.

Miss Brown's engagement to Mr. Wallace of Washington was announced some time ago, but she was set at the time for the wedding to take place the last of November at the quaint little Episcopal Church at the corner of Broadway and Figueroa streets. Miss Brown, who is a charming young woman, has yet chosen her bridesmaids and will announce them within a few weeks. Her many friends are all preparing to entertain her most cordially.

IS BOMBSHELL FOR MINISTERS.

Confession of Faith Passed to Committee.

Congregationalists Meet in Annual Session.

Origin of Union Idea With Other Churches.

Ministers and delegates from eighty-four congregational churches gathered yesterday at Claremont, the seat of Pomona College, and began their annual session in the splendid new church recently completed. This handsome structure is really a part of the college equipment, and its pastor is Rev. Dr. Henry Kingman.

The association was organized by the

Claremont Congregational Church, where the General Association of Southern California is in session, and Rev. Dr. Henry Kingman, its pastor.

Section of the following officers: Moderator, Rev. C. P. Dorland, Long Beach; Assistant Moderator, George W. Marston, San Diego; Scribe, Rev. W. M. Burr, Registrar, Rev. F. J. Culver. One of the very first things said in the convention to attract any attention, came from Culver.

"I want to know," he said, "if you are going to continue to print in the minutes this Confession of Faith. I venture there are not a half-dozen ministers in this assembly who accept it."

The brethren, judiciously, sent the question to a committee, instructed to make a report "at some future time."

Dr. George A. Gates, president of the college, was at Williamsstown, Tenn., yesterday, delivering an address at the one hundredth anniversary of the American board. The association authorized the sending of a congratulatory telegram in the name of the association.

A LONG WAY BACK.

Rev. H. P. Case, Sunday-school missionary for the Coast, in reviewing the field, spoke of Val Verde, "fifty miles from a railroad, seventy miles from the nearest minister, forgotten of men and almost forgotten of God."

"It seems to me," said Mr. Case, "the most pitiful sight I have ever beheld is that of the desert-born, desert-reared children of the mining camp, and next to them, a few pitiful women, who long since left God's country, but still have a lingering recollection of better things, striving to teach their own children or somebody else's children, something of a better life, with no one to help them."

UP FROM SAGE BRUSH.

In the absence of President Gates, Prof. Norton spoke for the college. He brought out the interesting fact, by asking them to stand, that eight persons were present who made the first trip into the sage-brush eighteen years ago, to inspect the site of the proposed college.

"At that time," said Prof. Norton, "the delegates were invited to walk from the railroad up through the sage brush and lower down to the proposed site, and see if we thought it might do for a college. At that time there was just one house outside the bounds of Pomona."

On this ground now stand the eight handsome buildings that constitute the college, surrounded by the village of Claremont, the whole presenting one of the most picturesque groups to be found in Southern California.

BEAUTIFUL CLAREMONT.

It is probable that the question upon which the minds of everybody in attendance at the meeting of the association is concerning the probable union of colleges interests.

The natural location of the college at Claremont is wonderfully beautiful. No one can adequately portray the fascination of the landscape, sloping away toward the fertile valley southward, leaving the college buildings silhouetted against the var-colored mountains.

The growth of the Congregational educational institution has been phenomenal, having increased from 184 students in 1902, to 400 students in college and academy combined in 1904, but the desire to make it a strong institution, yet retaining its place as a small college must have led to the offer of union.

The offer was to the Disciples and Baptist denominations, each being offered a representation of five members on the board of trustees, the Congregationalists retaining fifteen members. It was unanimously accepted by the Disciples at their annual convention in August, and the following persons named as their representatives on the board: C. C. Chapman, Fullerton; John Fleming, San Diego; W. L. Porterfield, Long Beach; Rev. A. C. Smith-

er, Los Angeles; Rev. F. M. Dowling, Pasadena.

BAPTISTS UNCERTAIN.

Baptist talk had seemed to be generally favorable, up to the time of the meeting of the Los Angeles association at Claremont last week. There the expression of opinion was against it, though the acceptance or rejection of the proposition must come from the Baptist General Convention, which will meet in Los Angeles during the first week in December. Some influential Baptists have taken the position that they will in the near future be able to maintain a denominational college, but if the experience of other colleges is to be taken as a criterion, there are grave doubts about it.

The long struggle of the ministry of Southern California, with its great Methodist host behind it, and the struggle of Occidental College, backed by a strong Presbyterian clientele, both of which have just now entered upon the first real prosperity in their history, cloud with doubts the possibility of success on the part of weaker denominations.

For fifteen years Congregationalism has kept its grip on Pomona College, only to acknowledge at the end of that time, though every outward condition is ideal, that it is desirable to unite the educational interests of three denominations of about equal strength, in order to more adequately support the institution.

If the Baptists declare against the union, or even if the alliance should

not be consummated with the Disciples, it will make no difference with Pomona. She has a plant valued at more than a half-million dollars, and stands so well on her own feet that she can go right on, much stronger today than ever before.

HOW IT ALL HAPPENED.

Rev. E. F. Goff of Riverside told the convention just how the scheme for uniting the educational interests of the three denominations originated.

"I thought I could best interest you," he said, "by just telling you how it happened."

This college stands for Christian character and manhood, first of all, but it believes it ought not to place the stamp of denominationalism on any student. It has students from many denominations, and it holds with pride to the fact that they are none the less loyal to the churches from which they came.

"The thought of union started with a student in the college. It was talked about for a long time as a union with the Disciples, and finally resulted in a meeting of committees from the two bodies."

"Not long afterward some Baptists expressed the opinion that they might become a party to the union, and this talk resulted in a meeting of committees representing the three denominations."

"We were in the position of a young man seeking a bride—will you have us, and on what terms?"

ITS LIBERAL STAND.

The main point in the agreement upon which the three committees finally united, is that the union shall be tentative for five years, in the hope that it shall become permanent.

"It is our hope and expectation," continued Mr. Goff, "that at the end of that time, the election of trustees shall be without denominational considerations, and the election of professors and teachers for scholarship alone."

The one other leading point in the agreement is that the funds contributed by either denomination during the five years tentative period, shall remain in the hands of the trustees of that denomination, only the proceeds going to the college. If not satisfied with the results of the union they may then withdraw and take with them all the funds they have contributed.

All that now remains to make effective the union with the Disciples is to amend the college charter, increasing the number of trustees, and the election by the present board, of the five men already named and submitted.

Both Mr. Goff and Prof. Norton urged the argument that it is not because they need students that the college wishes to reach out farther, but in order that they may do a greater work.

Last night "The Messiah" was rendered by the College Choral Union, preceding the annual sermon by Rev. Dr. J. H. Williams.

Interesting programmes for the sessions today and tomorrow have been prepared.

ADOPT CONSTITUTION.

Meeting of the Jewish Women's Foreign Relief Association.

The first regular meeting this season of the Jewish Women's Foreign Relief Association was held on Monday afternoon, October 8, in the assembly room of B'nai B'rith. Mrs. Bertha Hirsch Baruch, president, presided.

After a brief review of the policy of the organization by Mrs. Baruch, the association adopted a constitution and bylaws.

Mrs. Isadore Myers, chairman of the Ways and Means Committee, reported much valuable aid rendered victims of the San Francisco disaster by means of the funds raised for that purpose by the children's concert held under the auspices of the association last May.

The society is constantly receiving applications for assistance from friends and relatives here of persecuted Jews in Russia, and in order to make possible the necessary aid for transportation of the sufferers the officers are evolving plans for the celebration of an old Jewish festival, which will include many attractive features of popular interest.

WANTED

Buyers who know a good thing when they see it, to call at our

PIANO HOUSE

during the few remaining days of our big special sale. If you have any use whatever for a piano and can make any kind of fair payments—\$6.00 to \$10.00 per month—you owe it to yourself and family to see us now.

Our Big Sale Of

PIANOS

Is Nearing The End

One week ago we announced that we would make the effort of our lives to sell

200 High Grade Pianos In Just 10 Days

The records in our office would give you some idea of what has happened during the past week—by far the largest week's business we have ever done since entering this territory.

The people of Los Angeles and vicinity like good things.

This has been doubly proven to us during the last few days by the large number who have purchased our leading makes, such as Knabe, Ludwig, Fisher, Packard and others.

Only a Few Days More

\$100, \$150 or \$200 is worth as much to you as anyone, and it's your privilege to save this amount on the purchase price of a piano by acting at once.

We have a few more of the \$183 style—well worth \$300—also a goodly assortment of those famous makes now being offered at \$273, \$292, \$312, \$328, \$344, \$356, etc.

\$8 or \$10 per month—or 2 per cent. off for spot cash.

There may be bargains in the future, but these are rare bargains that don't come very often.

Hundreds have said so—ask your neighbors who have bought at these prices, then come and see us.

We stand ready to make good every statement that has gone out over our signature.

We are the largest buyers and sellers of pianos on the Pacific Coast. Our new home is centrally located and we show the largest line of pianos in the Southwest.

The Wiley B. Allen Co.
Established 1910

416-418 South Broadway
Opposite Broadway Department Store.

October Clearance Sale

The Big Saving Event of the year is now on. There are Saving Opportunities in every corner of every floor. Reduction tags greet you everywhere—COME TODAY.

Dining Tables

The reductions on Dining Tables is enough to interest you if you want to save. We have assortments in both golden and weathered. The price list includes the following:

\$14.50 Tables
\$16.00 Tables
\$20.00 Tables
\$22.50 Tables
\$25.00 Tables
\$30.00 Tables
\$37.00 Tables

Folding Beds Reduced One-Third

That's a good reduction when you consider the fact that our regular prices are remarkably low. The first price is \$22.50, reduced to \$14.50, and then on up as high as you care to go. Most of the beds are the celebrated Welch make. We have a good assortment of woods, finishes and styles.

\$20 Mission Dresser \$14.75

Everybody likes Mission Furniture and now it is much called for in bedroom pieces. This one has proven a popular one. We have sold several shipments of the same design. The wood is oak—solid.

\$22 Oak Dresser \$17

A solid oak piece throughout in a rich golden finish which brings out the beautiful grain of the wood. The mirror is oval, measures 24x30, and is French beveled plate.

\$12 Iron Beds \$9

This is a new design but we add it to the list of bargains with a reduction of 25 per cent. The tubing is extra heavy throughout. The color is cream with a dash of gold used here and there with splendid effect.

Another One for \$2.30

If you want a low priced bed for ordinary service, this one will fill the bill. We have some other good bed bargains that you ought to look into.

LIFE-MURDER IS INDICTMENT.

FRANK BROUWER FACES A
JURY ON CHARGE.

Are Secured With Un-
usually Rapidly and Prosecutor
Testimony Will Show the
Man Was Killed by Arsenic and
Lead Glass.

THE ASSOCIATED PRESS—P.M.]

RIVER (N. J.) Oct. 9.—Prosec-
utor will today outline the
case in the trial of Dr. Frank
Brouwer, who is charged with slowly
killing his wife by means of arsenic
and lead glass. A jury was selected
yesterday more expeditiously than had
generally been expected. It has been
estimated that Dr. Brouwer was so well
known in the community that it would
be difficult to select a jury.
The case has aroused so much
interest and discussion that people
believing that exists was shown
Manhattan Cramer was called
about to be questioned when
he suddenly:

Dr. Brouwer's excuse me; this man
is my friend." He was excused.
The jury will today select a jury
of slight paleness. Dr. Brouwer
evidence of the strain of his
endurance. That he will, to a
degree, direct the conduct of
the trial, was indicated during the
case at the jury. He watched the
proceedings closely, and several times
was challenged by his counsel
to the stand.

Elizabeth Hyer, sister of Mrs.
Brouwer, who was most instrumental
in Dr. Brouwer's arrest, sat
beside the prisoner yesterday. She in-
timated that she would be in daily at-
tendance at the trial. Miss Hyer de-
clared that the family will spend their
small fortune in an endeavor to
save the prisoner, and to this end
retained Aaron E. Johnston as
counsel to aid prosecutor.

Dr. Brouwer, who is sitting
beside the prisoner, recently suffered from
a slight ailment, and is far from being
well. The hope was expressed by
Brouwer's friends that he would not
be down, as all concerned wish a
decision. It is expected the trial
will last two weeks.

Dr. Brouwer is being conducted in an
elegant, white-pillared court-
house. Through of eager, interested
people are attending.
Evidence which the prosecution
wishes to introduce in the effort to
show that Dr. Frank Brouwer mur-
dered his wife that he might be free
of another woman, was introduced
yesterday. The jury was present when
Brouwer died, and an undertaker
removed his body, where the first
trial was resumed today.

Henry Cattell of Philadelphia,
one of the two doctors who held the
trial, testified that it had shown no
cause for death. He said that the
illness might have resulted from arsenic
poisoning.

ROB BY DAYLIGHT.

THE ASSOCIATED PRESS—A.M.]

FRANCISCO, Oct. 9.—A high-
schooler of unusual boldness oc-
curred just before noon today near
the corner of Thirteenth avenue and
Main street. Three men armed
with revolvers approached John Lally,
who was working on the street, and

in full view of fifty persons, who
watched the proceedings from the
refugees' cottages a few hundred feet
away, robbed Lally of a gold watch
and several dollars.
Lally, who counted on intervention
from the many witnesses, gave up his
property without resistance and the
three men, still displaying their re-
volvers, hurried to the Presidio Reser-
vation, where they disappeared. The
police were furnished with a good de-
scription of the men.

DISMISSES MURDER CHARGE.
EVIDENCE IS INCOMPLETE.

(BY THE ASSOCIATED PRESS—A.M.]

SAN FRANCISCO, Oct. 9.—The
charge of murder against Edward S.
Boynton, who was accused of having
been one of three men responsible for
the death of H. C. Tilden, the Red
Cross worker shot on the night of
April 22 last, was dismissed by Judge
Cook today upon the motion of As-
sistant Dist. Atty. James Hanley when
called for trial.

In his motion for dismissal, Hanley
said that the evidence to be introduced
would be exactly the same as that
used in the trial of Boynton's associ-
ates in the citizens' patrol, Malcolm
Vance and George Simmons, who were
acquitted recently after twenty min-
utes' deliberation by the jury.

CARMEN BEAT REPORTERS.

ONE NEWSPAPER MAN MAY DIE.

(BY THE ASSOCIATED PRESS—A.M.]

SAN FRANCISCO, Oct. 9.—Charles
R. Brennan and William J. Mundell,
newspaper men, were beaten by a
quartet of carmen at O'Farrell and
Devisadero streets yesterday morning
in a dispute over the payment of a
fare.
Last night the police arrested Wil-
liam Parobment, F. J. Haggerty, A.
Hessings and J. Dunnigan for con-
nection with the assault. The four men
were locked up at the Park Police Sta-
tion, where they will be held without
bail. The surgeons believe there is
little chance for Brennan's recovery.

CHILD IS KIDNAPED.

SUSPECT WOMAN IN GRAY.

(BY THE ASSOCIATED PRESS—A.M.]

BUFFALO, Oct. 9.—Susie Becker, 3
years old, the daughter of Frederick
Becker, a saloonkeeper, is believed to
be in the hands of kidnappers. Yester-
day morning while Susie and her
brother were on Main street, about a
block from their home, the girl was
approached by a woman who asked
her to go for a walk.
The child readily accompanied the
woman, expecting the usual reward of
candy. At supper time when the par-
ents discovered that Susie was mis-
singing the police were notified. The only
description the lad could give of the
strange woman was that she was
dressed in gray.

SAYS HE'S SHOLT'S COUSIN.

H. A. D. SCHULTZ UNDER ARREST.

(BY THE ASSOCIATED PRESS—A.M.]

ST. LOUIS, Oct. 9.—Henry Alfred
Douglas Schultz, who says he is a
cousin of Lord Sholto Douglas of Eng-
land, was arrested here yesterday upon
instructions from the New York police
department, which says he is wanted
in New York on the charge of grand
larceny.
Schultz expressed a willingness to
return to New York without a regula-
tion, declaring that he is innocent of
any wrongdoing.

JOKE WAS FATAL.

MAYOR SHOT BY WIFE.

(BY THE ASSOCIATED PRESS—A.M.]

HINLON (W. Va.) Oct. 9.—As a re-
sult of a joke on his wife, Charles
Smith, Mayor of a little town called
Brooklyn, near here, is believed to be
dying. Mrs. Smith is also probably
fatally wounded. Smith had Elbert
Meddler dress as a woman and call
him out to the gate. Mrs. Smith, an-
gered by jealousy, shot her husband
through the stomach and lung, and
then shot herself.

PETTY THIEVES BAFFLE POLICE.

SLEUTHS UNABLE TO HUNT
DOWN THE CRIMINALS.

Hundreds of Dollars' Worth of
Clothing and Other Articles Have
Been Stolen Within Past Few
Weeks—Information of Big "Jobs"
Withheld.

Annoying petty robberies bothered
the police yesterday, and in each in-
stance the thief stole articles of cloth-
ing. Suits, underwear, handkerchiefs,
shirts and slippers were among the ar-
ticles purloined. Though hundreds of
dollars worth of goods have been taken
in this way within the past few weeks,
no arrests have been made, as the
thieves seem to be immune.

Perry A. Ray of No. 345 East First
street lost a suit of clothes from his
room yesterday. Joseph Castleton is
out a lot of tools. W. B. Myer, who
rooms at The York, No. 103 East Sec-
ond street, is minus a suit of clothes,
four suits of wooden underwear, a suit
of cotton underwear, handkerchiefs,
shirts and towels. William Paffenholz,
a guest at the Ohio rooming-house, No.
232 East First street, reported the loss
of clothing.

Day after day the bulletin of petty
burglaries is posted at detective head-
quarters. The real "jobs" are kept a
profound secret, and the appetites of
the reporters who nose around the "Big
Chief" in search of items, is appeased
partially by the posted list. Diamond
robberies, hold-ups and large bur-
glaries are to be kept from the public
if the detective office has its way. The
newspapers must find information of
such affairs from other than police
sources. The explanation the officials
give for not furnishing the news is that
it would hamper them in tracking down
the criminals.

CRIME BRIEFS.

Robs Ranch Hand.

SAN FRANCISCO, Oct. 9.—Cecil Ba-
rolishi, a ranch hand from Fresno, was
attacked and robbed by two men on
Pacific street about 2 o'clock this morn-
ing. They hit him on the head with a
club, and left him senseless in a tax-
i cab. The robbers escaped, after tak-
ing \$17 from his pockets.

Is Tried for Wife-Murder.

SAN JOSE, Oct. 9.—William D.
Wright, who killed his wife in a res-
taurant on July 18, is on trial today.
Testimony is being taken. State
Senator Charles M. Shortridge, brother-
in-law of the defendant, being the
principal witness.

Seeks No Reprieve.

ALBANY (N. Y.) Oct. 9.—Gov. Hig-
gins stated last night that he had re-
ceived a letter from Albert T. Patrick,
requesting the Governor not to en-
tertain any application for executive
clemency unless that application was
made by Patrick himself. No formal
application for clemency in Patrick's
behalf is now pending before the Gov-
ernor.

Every Mohammedan was obliged to make the pilgrimage to Mecca at
least once during a lifetime. After visiting the Temple of Mecca, or
the great Mosque, and drinking of the sacred well, they were styled
"Hajj."

In the great Western pilgrimage of today, all settlers and homesteaders in this great
Southwest are buying their furnishings at Overell's, where great economic possibilities
await them.

ATTEND THIS GREAT BARGAIN FESTIVAL!

ACCIDENTS OF THE TROLLEY.

Joint Commission Reports Causes and Remedies.

Finds That Speed Ordinance Is Utterly Ignored.

Says "Less Hours and More Pay" for Motormen.

The commission created by the joint action of the Chamber of Commerce, the Merchants' and Manufacturers' Association and the Manufacturers' League to investigate the causes and suggest remedies for accidents on the trolley of Los Angeles and vicinity, has made an exhaustive report, embodying numerous recommendations. The commission took a great deal of testimony, searched the newspaper files and examined official records, and ascertained that there were seventy-five fatal railway accidents in Los Angeles during the twelve months up to September 1, 1924.

Having learned the difficulty of getting the information, the commission recommends the passage of an ordinance requiring railways to file with the City Clerk records of all accidents. The commission finds that the figures given out by the trolley companies to the census bureau are ridiculously false, and says:

TOO MANY ACCIDENTS.

"The result of our investigations has convinced us that the number of accidents, fatal and otherwise, occurring in this city and vicinity is entirely out of proportion to the population, the mileage of the roads, the number of passengers carried, and the number of street cars. It can be used as a basis of comparison, after allowing due consideration for all peculiar conditions of climate and other local features that may affect the issue. Furthermore, we believe that the causes of these accidents, no matter how numerous, lie in a large measure, within the control of the companies and the public authorities, although we recognize that there is a grave need also for the cultivation of a proper public sentiment on certain points that enter into the problem."

The commission therefore recommends that the City Council establish by ordinance a department of transportation, under the Board of Public Works, and that a fund of not less than \$10,000 per year be obtained by increasing the city's charges against these street railroads, and that the services of some experienced street-car manager be secured at a fair salary, whose duty it should be to inspect all street car lines and their methods of operation, in the interest of the people; to check up and give an opinion upon all franchises proposed to be granted, and to study, in every way, the safeguarding of the city's interests.

Of the 75 fatal accidents occurring in this vicinity during the twelve months from September 1, 1923, to September 1, 1924, 48 took place in the city, and 27 in the county outside the city. The division among the various roads is as follows:

Los Angeles Railway	24
Los Angeles-Pacific	9
Inter-urban	9
Pacific Electric	3
San Antonio	2
Joint, etc., accidents	8
Total	75

There were, all together, 443 accidents, all of which were sufficiently serious to call for newspaper comment.

TOO HIGH SPEED.

The commission says: "There is no doubt in the minds of this commission, and there is, we believe, no doubt in the minds of the railway people themselves, that the primary and the largest cause for accidents in this vicinity is too great speed. When the national government asked the local roads for their maximum rate of speed, they answered eight miles an hour in the city and twenty miles an hour in the country. The chief mechanical engineer of one of the largest local companies testified before the commission that the city cars were geared to run thirteen and a fraction miles an hour on the level, and could not go faster than that. Of the superintendent of one of the roads there were several who laughed away all such statements as these, and frankly admitted that their cars on certain lines habitually made a maximum of twenty-five miles in the city and forty in the country, and that at times even higher figures were reached. The city has at the present time an ordinance, passed last June and effective on the 15th of September, limiting the rate of speed to eight miles over crossings in the city generally, except that it shall be four miles over crossings in the district between Tenth street and the Plaza. Not the slightest attention is paid to this ordinance by the railways. We found more of the higher officials of the roads in ignorance of its existence—as was also the coroner."

The defense offered by the roads for their violation of law and their risking human life by this high speed is that the public demands it. Considering that the commission is constituted a monopoly that can, if it chooses, ignore the demands of the public when not enforced by law, we must decline to accept the theory that these high speeds—which we believe to be far beyond those commonly in use elsewhere—are solely in response to public demand.

The commission calls upon the law to be enforced, to the end that if it is impractical it may be repealed or amended, and makes these recommendations, viz.: That all cars carry signs, "Take Next Car," to be used when no stops will be made; that steps be made on crossing of crossings; that cars come to full stop at crossings; that speed of steam cars in city limits be not more than fifteen miles an hour; that cars come to full stop before descending dangerous grades; that rules of right of way be simplified; that downtown streets be not used for depot purposes; that cars be not allowed to pass in continuous line or to encroach on crossings when stopped; that the companies operating single track reorganize and improve the efficiency of their system of operation; that the companies make a critical inspection of the practical efficiency of the safety or hand brakes; that in view of the terrible accident at Second and Spring, caused by the failure of the magnetic brake, the companies using that device should consider whether or not to remodel the interlocking appliance, whereby it is necessary to throw off the current by hand before the brake can be used. Also that this brake be used on hill-climbing cars.

AS TO FENDERS.

The commission finds the fender now in use effective for service in the city, but questions its value on high-speed suburban lines. It does not believe, however, that the fender is receiving a fair trial, and recommends that the ordinance be strictly enforced. Pits for inspection of motors at terminals are advised, and it is recommended

of the fatal accidents continue in his recently adopted practice of securing for the important cases, particularly collisions, the service on the jury of men of standing in the community. This commission has caused a checking to be made of Coroner's juries for some time back, and the personnel with a few notable exceptions, is not reassuring; that the Coroner institute special inquiry in all cases where there is possible responsibility for the accident or motorman, as to the experience, and the number of years of service with the company. The report is signed by J. G. Polk, Fielding J. Hill, Robert McGarrin, and Eugene Germain.
